## **Light Energy ... At Your Fingertips**

DNR, Inc. energy products are derived from the natural energies found in herbs, plants and other resources of nature. Select combinations of these energies are transferred into electrically charged water solutions after their potency has been sufficiently boosted. Each finished liquid solution maintains an energy level well beyond its original state.

Each liquid solution carries an electrical energy charge 4 to 6 times higher than the body's electrical system requires—not enough to shock anyone, but strong enough to clear up blockages in natural energy pathways.

Each part of the body has a definable energy vibration, and when its vitality is low or weak, it cannot energetically support itself or work properly with other parts of the body. By applying DNR energy products topically, orally or otherwise, the surge of energy can help strengthen any low, weak or blocked energy movement.

The body recognizes signals given off by herbs, minerals and other resources in nature. The stronger their signals the quicker the body can respond. DNR energy-based formulations give off these same signals, only at higher and stronger levels that can mobilize favorable activity.

When the energy of an herb, dietary supplement, mineral or other resource is taken in by the body, the body recognizes the resource by its particular energy resonance. It is this energy signal that is transferred through the application of each DNR formulation.

The body and its vital parts also recognize signals picked up from the environment as well as those signals transmitted from within the body's natural living processes.

Thousands of energy signals provided by DNR energy-based formulations are used for corrective and counter measures when dealing with harmful environmental radiations or pollutants that have pervaded the body.

Each DNR energy-based product is composed of a select group of energy frequencies taken from an inventory of thousands of light, color and sound waves.

When we develop a formulation, we select energies based on any possible combination of natural energy resources that may bring about desired results. Even though each body may only need the energy from one particular source, DNR may have thousands of different energy combinations available to the body through any one particular product. While experiencing similar conditions or symptoms, different users may require different combinations of energy frequencies in order to receive the same effect.

### **Daily Energy, Vitality and Balance**

The first product for DNR users to begin with is called *EVB*, which stands for Energy, Vitality, Balance. It is a daily water energizer, balancer and vitality booster. *EVB* helps the body fight toxins and chemical pollutants in the food you eat, the air you breathe and the water you drink as it maximizes the immune system. This product is for everyone to use every day for life.

### **Products to be used topically**

These products are known as *Liquid Needle* Rebalancers. Daily, the food we eat, the air we breathe, and the liquids we drink can keep us totally out of balance. *Liquid Needle* Rebalancer topical formulations can be applied to various points on the skin and are capable of triggering a response without using an acupuncture needle. That's why they are called "*Liquid Needle*". Even though there are a lot of people who believe in the results of acupuncture, they would rather not go and get needles inserted into their skin.

### **Products to be taken orally**

These products are known as *Liquid Signals*. They have been taken from energies obtained from herbs; many different plants and trees; nutritional sources and minerals; in short, from natural resources. While these products have been formulated to balance the body and increase its vital energy, each one carries highly charged energy signals that trigger needed responses from targeted areas.

### **Products for washing fruits & vegetables**

These products are developed to counter the harmful effects of pesticides or other toxic residues on or in the food. They also add natural nutritional properties to each fruit, vegetable or any washed or cooked food.

### **Products to counter toxic effects of EMFs, synthetic chemicals in fabrics and other finished products**

These products, called *Fabric Shield* and *Fabric Shield Spray*, enforce the body's resistance to the potential harmful effects of electromagnetic radiations and chemical emissions from fabrics. This is achieved by increasing the body's own ability to counter harmful emissions and EMF radiations.

### **Products to add to bath water**

There are presently 25 liquid Body Soak products that give the entire body a complete rebalancing. Each soak can raise the body's energy level and clear any blocked energy pathway. All Body Soak formulations trigger all of the body's 1,300 plus energy points. While the body is being balanced, it is also being cleansed of toxic buildup. This is done safely through the pores of the skin, rather than breaking down toxins and circulating them back through the body where they can become attached to some organ, gland or tissue. Each body soak product is individually formulated to deal with problems relating to specific health continuation or restoration needs.

### **Powerful Products for Health Care Professionals and others**

These products go far beyond any technology presently available. The HBH *Photanical* Series stands for Herbal–Botanical–Homeopathic. There are 17 liquid oral application HBH products that are derived from the energy of herbal, botanical and homeopathic sources. Each one targets certain conditions and areas of the body. Each one deals with specific drainage and all possible miasms. These are advanced formulas and are usually used for major imbalance and energy deficiencies and blockages.

*Photanical* comes from the two words, **Photons** and **Botanical**. Photons are light energy waves and botanical means, “related to plant life”.

### **Products to use topically on the vertebrae called *Liquid Triggers***

There are 26 products that match up to 26 vertebrae. Each vertebra is associated with specific areas of the body. Each product targets specific areas or conditions with electrically charged light waves. These products can be felt quickly. The restoration of energy and balance and the overcoming of particular health needs are primary in the success of these products.

### **Specialty products for special concerns**

There are special products for children with special needs, such as ADD, hyperactivity, lack of focus and uncontrollability; special products for athletes who wish to enhance their performance and deal quickly with injuries; special products for animals that deal with their physical/emotional problems; and, special products for those wanting to look thinner, trimmer and younger-quickly. (We have been making *Dynique* Body Bath and *Dynique* Face Lift since 1970, and it is super safe and fast in showing results).

### **Extra-Strength Products**

DNR offers Extra-Strength formulations for those individuals who need faster-acting or more potent results. These products offer the same benefits as the regular strength formulations, but are for those with severe and/or nagging conditions.

**DNR Light-Energized formulations are oxygenated and provide more electrical support to the body's cells than any supplement or food source known to man. ■**

All together DNR makes over 170 products. While this may seem overwhelming at first glance, you'll relax when you read on and see that each product addresses specific needs.

Pages 2 & 3 show Key Words which relate to different DNR products. The only product not listed is EVB, since everyone should use it as a basic product for energy, vitality and balance.

**IMPORTANT  
READING**

## ***The World's First... Light-Energized Water Solutions***

DNR Energy-Based solutions are made from water. Water is an excellent conductor of electricity. Since the body requires electrical energy to move signals from one place to another, water becomes an essential element for carrying life sustaining signals.

Up to 70% of the body is composed of water fluids. Over 90% of the nutrient carrying blood is composed of water.

The body depends on its water base to sustain the electrical potential of the neurons as well as each cell's electrical voltage or current.

The cells depend on this electrical current to facilitate the movement of impulses. These electrically stimulated impulses trigger or signal all of the body parts to carry out their vital tasks.

Capsules, pills, powders, and tablets are not considered good conductors of electricity. Manufacturers have not considered the body's electrical needs when they make substances that act as carrying agents for drugs, medicines, vitamins, minerals, herbs, and other dietary supplements. These substances carry virtually no positive electrical charge or voltage. In fact, water carries a negative charge of approximately 45 millivolts.

Nerve cells require a positive electrical potential of +70 to +90 millivolts of electricity to move neurotransmitters and hormones throughout the body. Each of DNR's energy-based formulations can hold and exert a positive electrical charge between +170 and +250 millivolts.

DNR has developed a proprietary technique of boosting and maintaining the electrical energy in all of its water-based solutions. The boosted electrical charge enables each liquid formulation to trigger the movement of the body's natural energy. Just as important is each formulation's ability to unblock natural energy pathways.

By boosting the base electrical charge of water, staff technicians are able to encode thousands of light wave frequencies into each energy-based solution. The combined frequency signals of each formulation have been selected to meet the needs of specific areas or conditions of the body.

The entire body depends on its communication system and its ability to send and receive messages (sometimes called signals or impulses). When a sending message is weak, a malfunction can result and some health consequence may occur. When there is a blockage of natural energy, some organ or gland will feel the loss of that required energy signal.

When message impulses or signals are weak, they need support. When they are blocked, they need unblocking. DNR energy-based formulations are generated to send up to +250 millivolts of electrical support to weak and blocked energy signals. Each DNR energy-based formulation provides an electrical vehicle that can carry the select light wave signals to needed parts of the body. Often times these areas are undetectable to conventional means.

**The human body conveys and processes some 30,000 signals per second. With our toxic and energy depleted bodies, is it any wonder the body hungers for all the electrical and signaling help it can get?**

DNR energized solutions are derived from nutritional, herbal, homeopathic, botanical and other natural resources the body requires for balance and healing. They are always safe, generally fast acting, and simple to use.

This Usage Guide has been prepared to introduce its reader to each of DNR's products. Usage tips and protocols are located throughout this guide. ■

# **E.V.B.<sup>™</sup> — Energy • Vitality • Balance** **For Everyone to use Every Day**

**A daily water energizer, balancer and vitality booster.**

*EVB* utilizes the knowledge of all our years of research and development to combine twenty-first century technologies used in the development of all of our products. Now, by taking super-charged *EVB* with your water throughout the day, you can mobilize your own body's water contents into electrically charged energy molecules that enhance the effectiveness of every system in the body.

*EVB* stands for Energy, Vitality and Balance. It is an all-natural, electrically charged, concentrated water that energizes and provides a wide range of benefits to the body. Simply add 2 teaspoons to 32 ounces of water each morning and drink throughout the day. As the highly charged ions flow through your body, they provide the vital energy needed to remain in balance and maintain an effective immune and nervous system. And this is just the beginning.

Each person is made to function with a vital energy that flows throughout the body. The entire body relies on the flow of this vital energy to regain or maintain health. If the body's energy is blocked or out of balance, it cannot fight off disease or sickness. It cannot deal with the environmental pollutants that enter through our food, our drink, our breathing and even through the pores of our skin. Blocked or out of balance energy can result in fatigue and lead to poor concentration and focus.

**As *EVB* energized water flows through your body, it provides 7 major essential benefits:**

1. Counters the effects of daily fatigue all day long.
2. Balances your entire central nervous system.
3. Helps your body elevate its working vitality and strength.
4. Unblocks and balances all of your body's natural energy movement.
5. Balances the electrical and chemical properties of your brain and heart.
6. Enhances your body's processes used in improving mental concentration, physical digestion and toxic cleansing.
7. Counters the negative effects of toxins from pesticides, preservatives, etc. in your body until they can be safely detoxed with the appropriate DNR Body Soaks.

*EVB is for everybody to use every day. Each Ultra-Concentrated 8 ounce bottle makes 7.5 gallons of energized water and lasts each family member 4 weeks.*

<b>Regular Strength <i>EVB</i></b>
EVB-137, 8 ounces Suggested Retail Price \$40
EVB-137R, 32 oz. Refill Suggested Retail Price \$148

<b>Extra Strength <i>EVB</i></b>
EVB-137EX, 8 ounces Suggested Retail Price \$52
EVB-137EXR 32 ounce Refill Suggested Retail Price \$192
<i>Same as regular <i>EVB</i>, plus: contains the benefits of many antioxidants and nutrients found only in natural plant foods.</i>

<b><i>EVB</i> Oral Spray</b>
EOS-1, 1.1 ounce Suggested Retail Price \$55
<i>Fast acting, tastes great, and is convenient for pocket or purse.</i>

## ***EVB and EVB Extra Strength Usage Tips***

***Because of today's environment, EVB is for everybody to use every day. Each 8 ounce bottle lasts each family member 4 weeks.***

The body is composed of 65% to 75% water. While water is useful in keeping the body temperature stable, its main contribution is carrying electrical currents and signals throughout the body.

Now, with *EVB*, you can mobilize your body's water contents into electrically charged energy molecules that enhance the effectiveness of every system in the body. Continued use of *EVB* in drinking water even helps to counter and neutralize the contaminating effects of chemicals and toxins in your water.

***Always begin with at least one bottle of EVB regular-strength before moving to EVB Extra-Strength.***

Simply add 2 teaspoons to each 32 ounces of water each morning and drink throughout the day. Additionally,

- Don't use after 6:30 pm.
- Do not store *EVB* water in or near a refrigerator. Do not store near a microwave oven.

- When dealing with any condition for an extended period of time, use 4 teaspoons with each 32 ounces of water.
- Add to any liquid to counter its long term negative effects.
- When taking any synthetic pharmaceutical prescription or medicine, use 3 teaspoons with each 32 ounces of water.
- When dealing with any known electromagnetic fields or synthetic fabrics, use 3 teaspoons with each 32 ounces of water.
- Drink up to 64 ounces of energized water per day for maximum benefit.
- Use 1 teaspoon in 2 ounces of water, gargle and swallow for a general overall boost.

*EVB* Oral Spray signals the brain to release its balanced level of hGH. Your own body can now provide the maximum amount of its own growth hormone. *EVB* Oral Spray is fast acting, tastes great and fits in your pocket or purse.

***EVB Oral Spray Usage:*** Spray and swallow two sprays on the back of or under your tongue a minimum of three (3) times daily. *EVB* Oral Spray can be taken while using any other *EVB* water products.

***When the heart stops, hospitals don't use supplements, herbs or pills, they use electricity to jump start it. Your heart runs on electricity.***

***In fact, your entire body runs on electricity! You can turn every plain glass of water into an electrically charged energy drink with EVB!***

# Liquid Signals® Oral Supplements

## They're as simple as 1, 2, 3!

**Add 3 drops in 3 ounces of water 3 times a day! Add several oral supplements to the same 3 ounce water and take together. Each half-ounce bottle lasts approximately 40 days! (Adults add 6 to 9 drops 3 times daily when dealing with any urgent or existing health condition).**

The human body runs on electrical energy. All of its parts intercommunicate through the transmission and reception of energy waves (known as signals). Just as a radio can be set to receive specific radio stations by fine tuning to the correct signal, the body is tuned to receive thousands of different signals for it to function properly. DNR's *Liquid Signals* Oral Supplements have been oxygenated and highly charged with thousands of distinct energy signals to match the needs of the body, thereby balancing the body so that it can promote and maintain sufficient vitality and health.

Extra-Strength products offer the same benefits as regular formulations, but are for those with severe and/or nagging conditions. *You may find the taste of Extra-Strength formulations to be more noticeable than regular.*

### **DHE-501**

**Memory - Aging - Health Degression**

Energy signals derived from DHEA, SOD and HGH. Especially developed for men and women over the age of 45. Excellent for those wanting to look and feel younger every day. Quick acting. Memory enhancement.

### **MEL-502**

**Melatonin - Serotonin**

Energy signals derived from naturally obtained Melatonin and Serotonin sources. Helps the body deal with **sleep disorders, anxiety, depression** and other imbalances. For best results, use with PRO-503.

**½ Ounce Bottles**  
Suggested Retail Price  
Reg. Strength \$27.20  
EX Strength \$39.60

**2 Ounce Bottles**  
Suggested Retail  
Reg. Strength \$49.50  
EX Strength \$66.00

### **PRO-503**

**Progesterone - Estrogen - Testosterone**

Derived from naturally obtained Progesterone, Estrogen, Testosterone and 10 other hormone sources. Custom blended to maintain proper **hormonal** signals within the body. Developed for men and women whose bodies are dealing with midlife changes.

### **BAR-504**

**Green Barley Leaves - Blue Green Algae**

Energy boosted and greatly enhanced to offer the benefits of the **antioxidants** Green Barley and Blue Green Algae. Quicker acting and no negative side effects. High energy.

### **PYC-505**

**Pycnogenol - CoQ10 - Grape Seed**

This supplement has been formulated for the entire family (children over 5). Many additional **antioxidant** features have been added to provide a faster more effective outcome. Vital potency tests 40 times higher than Pycnogenol and CoQ10 together. Maximum strength.

### **VIT-506**

**Vitamins**

Derived from natural sources of 14 **vitamins** necessary for daily living. This unique oral supplement is formulated to optimize the utilization of nutrients your body uses every day. For best nutritional protocol use with MIN-521, ENZ-507, BAR-504 and PYC-505.

## Liquid Signals® Oral Supplements

### **ENZ-507**

#### **Digestion - Enzymes - Amino Acids**

Offers the daily required benefits found and derived from over 244 sources of **enzymes** and 20 **amino acids**. Developed for everyone whose body is dealing with **digestive, intestinal** and **metabolic** conditions. Essential product for anyone with poor dietary habits.

### **HEA-508 & HEA-508EX**

#### **Heart - Circulatory System - Fast Acting**

Helps the body establish a balanced working **cardiovascular** and **circulatory system**. (Best used with KBL-514 or KBL-514EX and GLA-519 or GLA-519EX).

### **CAN-509 Extra Strength**

#### **Parasites - Free Radicals - Radiation Chemotherapy - Toxins**

Developed to maximize immune responses and fight off parasites. Derived from Black Walnut, Black Walnut Green Hull, Worm Wood and other effective resources. *Used for cleansing bodies faced with fighting parasites and especially conditions caused from free radical activity.* Also made to enhance the body's own natural ability when fighting the effects of **radiation** and **chemotherapy** treatments. Excellent in helping the body raise its own vitality and energy. Suggested use: with CAN-133 Soak. For best results take 6 drops 5 times daily.

### **ALL-510 Extra Strength**

#### **Allergies - Extreme Reactions**

Supports the body's ability to deal with **allergy** symptoms caused by environment, foods and other associations. Contains powerful light-energized signals that address the countering of over 2,000 **allergy** conditions. Fast acting. Suggested use: double dose for adults during first 2 weeks.

### **VIR-513 Extra Strength**

#### **Immune System - Viral Defense Infection - Antibiotic - Quickly Supports and Energizes the Immune System.**

Quickly supports and energizes the **Immune System**. A strong Immune System is required for effective viral defenses. There are many opposed to using antibiotic drugs when suffering from infections. There are many risks due to side effects from taking antibiotic drugs for an extended period of time. VIR-513EX has been formulated to enhance the body's own natural "antibiotic" action when dealing with infection. Suggested use: Double or triple dose for adults during first 2 weeks. Very safe and effective.

### **KBL-514 & KBL-514EX**

#### **Kidney - Bladder - Liver - Cleanse**

Excellent for **cleansing** and **revitalizing** concerns. Engages the body's own natural **diuretic** action. For best results, use with GLA-519 or GLA-519EX.

### **COL-515 & COL-515EX**

#### **Cold - Flu - Sinus - Immune System**

Developed especially for preceding and during the **cold** and **flu** season. Found to be a powerful and fast acting resource. COL-515EX is an effective rebalancer and vital energy unblocker. Targets sinus **congestion** and **flu attacks**. For best results, use with VIR-513EX and ALL-510EX.

### **STA-516 & STA-516EX**

#### **Prostate - Adrenals**

Formulated to enhance the body's ability to deal with prostate and adrenal issues caused by imbalances or low vitality in those areas. Maintaining a healthy prostate and adrenals can be challenging the older we become. The body can better deal with sleeping patterns and prostate conditions when a natural balance is established. When in balance, natural functions of the adrenals become more normal.

# Liquid Signals® Oral Supplements

## **CEL-517**

### **Cells - Aging - Free Radicals - Fatigue Stress**

When the trillions of cells in our bodies have been attacked by **free radicals**, **toxins** and other environmental hazards - we may notice premature aging, as well as fatigue or **stress** in our daily lives. Even our **immune systems** and healing capacities become ineffective. CEL-517 was formulated to balance and energize *each cell structure*. When in balance the cells can maintain the highest possible level of offensive and defensive activity and cell repair is faster and more effective. Balance also promotes new cell development.

## **TOX-518**

### **Cells - Detoxification**

Every cell of blood, tissue or bone falls prey to the destructive path taken by toxins as they destroy or disable the glands, organs or vital structures of the body. TOX-518 was specifically formulated to work collectively with CEL-517 to support the body's own resources when neutralizing or breaking down toxins at the cellular level.

## **GLA-519 & GLA-519EX**

### **Glands - Organs**

Each of the body's over ninety (90) **glands** and **organs** has an important role in maintaining normal functions of the body. Let one gland fail to do its part and all of the glands become stressed and less effective in resisting disease or illness. GLA-519 is a total reinforcer that is formulated to help the body energize and maintain the natural balance of each gland individually and collectively. Full functioning glands are essential to a long and healthy life.

## **MIN-521**

### **Minerals - Nutritional Support**

None of us is ever sure if we are taking the correct blend or amounts of minerals in our daily food or supplements. It would be very difficult and expensive to buy all the mineral supplements the body uses and needs every day. MIN-521 is a natural blend of **mineral energy** derived from 70 minerals and trace minerals the body requires daily. This unique supplement is formulated to balance and optimize your daily **nutritional** intake.

## **SKN-524 & SKN-524EX**

### **Skin - Healthy Appearance - Aging**

As we begin to age, our **skin** often reflects the care we haven't given it over the years. SKN-524 has been formulated to offer the billions of cells of the skin a renewed vitality and healthy appearance. This supplement works from the inside out to counter the signs of **aging**, **stress** and **fatigue**.

## **ENC-527**

### **Light Wave Antioxidant Power!**

We saved the best for last! **E n' C** is the most advanced nutritionally based product we've ever made. Created to act as a powerful antioxidant using light wave technology. **E n' C** is taken directly from over 29 plants rich in natural tocopherols accompanied by a wide range of vitamin E and C energies. Once the **E n' C** oral supplement is delivered to the body, it is immediately detected and, without digestion and metabolism, it becomes instantly available and usable to fight off free radical attack. (Pricing for **E n' C** same as Extra-Strength products).

### **QUICK TIPS**

- ① If taking more than one oral supplement at a time, immediately before taking (not the night before) add the drops of each product to a single glass of three or four ounces of non-cold water.
- ② For severe conditions, try using 6 drops 3 times a day instead of 3 drops. Continue this amount until the situation alleviates.

See More Oral Supplements on Next Page >>

# Liquid Signals® Oral Supplements

## WOM-512

### Menopause - PMS - Intimacy

Formulated for women whose bodies are having to deal with physiological stress, PMS, menopause and other intimate female/partner related situations. Highly charged and oxygenated for a faster, more fulfilling outcome.

## MEN-511 & MEN-511EX

### Balance-Male Enhancement-Energy-Testosterone-Libido

Balancing the body to assist in the natural production of male hormones is the purpose behind DNR, Inc.'s MEN-511 Extra Strength. In both men and women, testosterone plays a key role in health and well-being as well as in sexual functioning. Examples include enhanced libido, energy and protection against osteoporosis.

Adult testosterone effects are more clearly demonstrable in males than in females, but are likely important to both sexes. Some of these effects may decline as testosterone levels decline in the later decades of adult life.

- \*Maintenance of bone density and strength
- \*Libido and clitoral engorgement/penile erection frequency.

\*Mental and physical energy

\*The most recent and reliable studies have shown that testosterone does not cause Prostate cancer, but that it can increase the rate of speed of any existing prostate cancer.

As testosterone affects the entire body (often by enlarging; men have bigger hearts, lungs,

liver, etc.), the brain is also affected by this "sexual" advancement; the enzyme aromatase converts testosterone into estradiol that is responsible for masculinization of the brain in a male fetus.

Contrary to what has been postulated in outdated studies and by certain sections of the media, aggressive behaviour is not typically seen in hypogonadal men who have their testosterone replaced adequately to the eugonadal/normal range. In fact aggressive behaviour has associated with hypogonadism and low testosterone levels and it would seem as though supraphysiological and low levels of testosterone and hypogonadism cause mood disorders and aggressive behaviour, with eugonadal/normal testosterone levels being important for mental well-being. Testosterone depletion is a normal consequence of aging in men. One consequence of this is an increased risk for the development of Alzheimer's Disease.

The bones and the brain are two important tissues in humans where the primary effect of testosterone is by way of aromatization to estradiol. In the bones, estradiol accelerates maturation of cartilage into bone, leading to closure of the epiphyses and conclusion of growth. In the central nervous system, testosterone is aromatized to estradiol. Estradiol rather than testosterone serves as the most important feedback signal to the hypothalamus (especially affecting LH secretion). In many mammals, prenatal or perinatal "masculinization" of the sexually dimorphic areas of the brain by estradiol derived from testosterone programs later male sexual behavior.

*MEN-511 Extra Strength is a conditioning re-balancer that is formulated to be used regularly! When used in that way, one can balance the body as to produce its own needed levels of constituents included in this product. There is a light energized triggering effect that takes the place of a chemical one, this if you take a drug or regular herb tincture, which would have an alkaloid effect, which is the chemical effect from a plant or alcohol used in an extract! You may only experience some of the effects, with or without knowing it. We feel very strongly that everyone, even females, will benefit from its use.*

# Vitalia™ Oral Spray

## An Easy Way to Boost Your Immune System's Fighting Power By:

- 1 **Energizing and Balancing Your Body's Nutritional Intake**
- 2 **Increasing Your Body's Ability To Counteract Environmental and Dietary Toxins**

When internal toxicity reaches a certain critical and undefined point, the body can no longer function or continue to exist.

Our nation's food supply has become corrupted with toxic chemicals that have the power to alter all of the body's natural functions and balance. There is another major problem with our food supply. It can no longer provide the nutritional energy the body requires to stay healthy. The body cannot fight off infections, parasites or disease if its own nutritional makeup has been tainted or compromised.

DNR has created a new oral spray that can furnish your body with a balanced supply of nutritional energy that lasts all day long! Just spray and swallow 6 sprays of *Vitalia* every morning and *Vitalia* will give your body the nutritional boost you can actually feel! *Vitalia* provides the body with the most potent forms of the nutritional energy it will ever need to stay healthy. No food product or dietary supplement can match its potency or protective benefits!

*Vitalia* is really 2 products in one container and satisfies 2 major objectives. It increases nutritional balance and energy, and it increases the body's ability to counteract ingested chemicals found in foods and found in our living environment. Meeting these 2 objectives can boost the immune system's power and the body's overall physical and emotional health.

In a recent study carried out by Mount Sinai School of Medicine in New York, nine (9) individuals were randomly tested for toxicity.

There were a total of 167 toxic chemicals found in all 9 bodies. In large part, many of these chemicals enter the body through foods. No matter how careful we are in picking out organic foods for meals at home or eating fast foods on the run, chemical adulterants are pervasive. Not only do we eat the chemicals found inside our foods, we drink the harmful chemicals in our water and other liquid products.

Each *Vitalia Oral Spray* bottle lasts one person an entire month.

Item VOS-700, 1 ounce  
Suggested Retail Price \$30

We are now learning that unsafe levels of mercury are being discovered in flood and rain waters and even in the air we breathe.

Furthermore, every breath of air is capable of carrying microscopic size particles of chemicals that may have come from the other side of the world, next door, or even our own homes or offices. And, without us ever expecting it to happen, we are constantly inhaling and absorbing environmental and household chemicals that are stored in our bodies for possibly as long as we are alive.

Almost all of us have become lulled into believing that since we are still alive there's nothing to worry about or there's nothing we can do about the problem. If not properly addressed, these toxic compounds and agents are left to trigger the activation of a disease that may not become apparent for years to come.

DNR uses the light-energized solution called *Vitalia* to deliver instant and long acting nutritional energy to the body. This energy can help the body convert its ingested food intake into more useful nutritional and energetic resources. It also works by enabling the body to effectively counteract the toxic chemicals and heavy metal agents found in the body.

*Vitalia* has been developed at a time when the world is being threatened with biological and chemical warfare. None of us know if our bodies are capable of dealing with any more deadly pollutants. The body's natural abilities to counteract and neutralize toxic agents has long been compromised and drastically minimized. *Vitalia* has been developed primarily to increase the body's nutritional functions and help it counteract all ingested harmful and toxic agents. It is best to be mindful, that when internal toxicity reaches a certain critical and undefined point, the body can no longer function or continue to exist.

# Liquid Signals® H•B•H Series

Derived from the energies of all three (3) sources: Herbal, Botanical and Homeopathic Remedies

These oral supplements are safer, faster-acting and more effective than those remedies containing toxic substances. While not intended to replace other DNR products, these products can accelerate and enhance DNR's other products for faster, more effective results. Each product in the series has been formulated to help the body promote its own ability to:

(A) Balance & Unblock Energy (B) Neutralize Cellular Toxicity

## Drainage and Miasms

You don't have to know which **miasm** is responsible for any condition. Each **HBH Drainage Formulation** deals quickly and effectively with any possible **miasm**.

## COMBINED HERBAL-BOTANICAL-HOMEOPATHIC FORMULAS

- **Stomach** - Gas - Bloating - Indigestion - Irregularity - Nausea - Appetite
- **Intestines** - Ulcers - Pancreas - Digestive - Appendix - Gas
- **Colon** - Toxicity - Intestinal Parasites - Constipation - Diarrhea
- **Liver** - Toxicity - Hemorrhoids - Gall Bladder - Blockage
- **Joint** - Pain - Swelling - Gout - Muscles - Over Exertion
- **Nervous System** - Irritability - Anxiety - Grief - Depression - Confusion - Shock - Brain
- **Endocrine System** - Menopause - Uterine - Hormonal - Thyroid - Pancreas - Adrenals
- **Cardiovascular System** - Heart - Kidney - Eczema - Psoriasis - Veins - Circulatory
- **Respiratory System** - Bronchitis - Throat - Adenoids - Flu - Sinus - Acne
- **Urinary System** - Kidney - Stones - Bladder - Prostate - Urinary Control

*Extra Strength HBH products are the same, except faster acting and more potent.*

### QUICK TIP

To determine which *Liquid Signals* H•B•H *Photanical* supplement has been derived from a certain combined formulation, look at the ten (10) categories of combined formulations listed above. This list will help you determine which supplement is best suited for you, your patient, or client.

For instance, each H•B•H item name matches a certain combined formulation which relates to certain situations or parts of the body.

All HBH Series are 12 ounces

# Liquid Signals® EXSTRESS

## Stressed - Anxious - Mean Angry - Tense

### Fast Acting and Effective!

Due to hormonal imbalances, the entire body can be greatly challenged. By triggering the release of the body's own stress-fighting signals, a sense of harmony and balance can return to everyday life. There is no safer or more effective means of establishing mental and emotional balance than the use of *ExStress* products.

All *ExStress* formulations work by passing coded signals to areas of the body that may be out-of-balance or experiencing natural energy blockages. These signals carry a multitude of energy vibrations that communicate and relate to specific areas or conditions that may be causing the problem.

Because of their electrically charged energy signals, *ExStress* products work on areas that cannot be reached by drugs, herbs or dietary supplements.

*ExStress* products have been derived from herbal, botanical and homeopathic remedies used in dealing with all levels of stress related imbalances - such as St. John's Wort, Evening Primrose, Valerian and Kava Kava. Only the safe and effective portions of those remedies have been used for creating these fast-acting formulas – their energies.

*ExStress* products are not habit forming. Without experiencing any harmful side effects, *ExStress* products are able to help the body deal with problems almost immediately. *ExStress* users have expressed feelings of wellness, relaxation, happiness and ease under stressful situations.

DNR has developed four *ExStress* formulations for dealing with different degrees of emotional and physical imbalances caused from anxiety, depression, stress and anger.

- *Extra-Strength ExStress Oral Drops* and *Body Soak* are for those who may be suffering unknowingly from deep rooted experiences found in the unconscious mind.

## Products for Pain

**Trigger your body's own natural "pharmacy" of pain killers with these light-energized products.**

Most experts agree, the safest and best way to control pain is when the body can release its own pain fighting chemicals to painful areas. Often times the body suffers from internal toxicity as well as weak or blocked energy movement which can mute or distort localized pain signals needing to alert the brain. These conditions often negate the brain's ability to trigger the release of these pain fighting chemicals to areas needing pain relief.

### **Liquid Triggers Pain Gel**

There is now a safe and natural way to help the body generate these pain fighting signals. *Liquid Triggers* Pain Gel is the new liquid gel developed by DNR that can be applied directly to any painful area. After rubbing it into the area using a counter clockwise motion for ten to twenty seconds, the pain should cease instantly. If pain hasn't been alleviated after 5 minutes, reapply.

*Liquid Triggers* Pain Gel works by sending lightning-fast pain signals to the brain where the brain can, in turn, trigger the release of its own pain fighting chemicals.

### **Amber Plus Pain Soak**

With AMBER Plus Pain Soak your entire body can enjoy the same pain relieving benefits found in *Liquid Triggers* Pain Gel. AMBER Plus Pain Soak has been formulated to handle pain situations experienced by long term or chronic pain sufferers.

Often those suffering from pain resulting from fibromyalgia, rheumatoid arthritis, osteo-arthritis, multiple sclerosis, and other severe illnesses don't have a clear alternative to prescription drugs. AMBER Plus Pain Soak allows the body to use its own natural pharmacy of pain fighters to work quickly and effectively. By triggering the release of the body's own pain fighting signals, the body can then deal quickly with pain, soreness and any type of discomfort.

### **Triggering Action For animals For humans**

QuickDraw™ now comes in a 32oz Soak size for full body relief. When used as a wrap or compress on humans or animals, QuickDraw™ can assist the body in facilitating ease by using its own pain fighting chemical manufacturing mechanism.

Quick Draw 32oz. (#QD108-32) Retail \$77

*While soaking, every molecule of bath water is used to bring the body into balance as well as trigger the release of the body's own arsenal of pain fighting signals.*

It has taken the Diamondhead research team eight years to develop these much-needed products. Using a mixture of nanotechnology and light-wave technology has allowed DNR to offer hope to millions of pain sufferers wanting an effective, swift and natural form of relief.

## **Liquid Needle® Shampoo Drops**

### **Energy - Balance - Protection**

Developed to balance and unblock major energy points in the head and upper body, *Shampoo Drops* is uniquely designed for everyone to use for all day energy and balance support.

*Shampoo Drops* starts the day off with higher levels of vitality and supplies greater Physical, Mental and Emotional balance.

Physical balance allows your body to feel the vitality and energy it needs to make it through a tough day. Mental and Emotional balance allows men to better deal with the symptoms of stress, grouching, frustration and anger while women can better deal with the symptoms of stress, mood swings, PMS and menopause.

Counters the effects brought on by synthetic and toxic chemicals found in shampoos, gels, hair sprays and dyes.

**Feel More Vitality  
and Energy  
Throughout the  
Day as you Fight  
Toxic Hair Products  
and Imbalances**

Item SD121, 1 ounce drops  
Suggested Retail Price \$48

### **Instructions for Use:**

Each time you wash your hair add 5 to 8 drops to the shampoo in your hand and mix.

Lather into your hair and spread over your upper body from your waist up (including your front, back, neck and arms).

Leave on for 30 to 60 seconds before rinsing.

## **Liquid Signals® Chi-Gong** **Peace- Contentment - Harmony**

Qi-Gong (pronounced Chee-Gong) is a traditional Chinese healing exercise centered around the body's Qi, or "life force energy." Qi-Gong has been used by the Chinese for thousands of years as a way to promote self-healing, rejuvenation and longevity.

Those who practice Qi-Gong generally experience increased stamina, better digestion, improved circulation, more restful sleep, balanced internal energy, reduced stress and anxiety and enhanced resistance to disease. They can feel and increase their life-force energy while dissolving energy blockages. Qi-Gong may help reach a natural state of peace, contentment and harmony.

By capturing and amplifying the energy signals established through Qi-Gong exercise, DNR has developed *Chi-Gong* topical and body soak.

New *Chi-Gong* Oral Spray possesses new and more potent signals that can help the body deal with anger, resentment, grief, sadness and depression.

## **Liquid Needle® Yellow Label Extra Strength**

***One of our strongest products yet.***

***Toxins - Parasites - Abdomen - Digestion -  
Ulcers - Foods - Medicines - Upgraded and  
Enhanced***

Specially formulated to maintain balance which is often affected by pesticides and preservatives found on fresh foods, as well as synthetic or toxic additives found in many supplements, herbal formulas and pharmaceuticals. Often an imbalance can result in Chronic Indigestion or even ulcers. For best results use with Green Label Extra-Strength.

***Extra Strength Liquid Needle® Yellow Label Rebalancer has been upgraded and enhanced with the benefits found in colloidal silver which has been found to promote healthy body functioning and immune system support.*** Prior to 1938, colloidal silver was widely used by physicians as a mainstream antibiotic. It was produced by pharmaceutical companies under various names, including Protargol. Colloidal silver refers to microscopic particles of silver that are held in a liquid suspension.

New research points to colloidal silver killing invading pathogens by way of an electrochemical reaction that immobilizes the oxygen-metabolizing enzyme of bacteria, viruses, protozoal parasites, fungi and yeast. This lack of oxygen causes the organism to suffocate and die. In its colloidal form, silver is a bioelectric mineral that carries a positive charge. Colloidal silver inhibits germ growth when the positive charge of the silver particles bind with the negative charge of the pathogen.

This causes an interruption of the biological function of the pathogen, which prevents it from reproducing. Colloidal silver is also, rapidly fatal to parasites, both bacterial and otherwise, without any toxic effects on the host. Medical researcher N.R. Thompson of the Runcorn Health Laboratory in Cheshire, England states, "To primitive life forms, silver is as toxic as the most powerful chemical disinfectants."

***Extra Strength Liquid Needle® Yellow Label Rebalancer encoded with amplified energies found in 2 sources of silver makes it one of our strongest products yet. Get the most from the benefits, with none of the side effects.***

***All Extra Strength Liquid Needle®  
Rebalancers***

# Liquid Needle® Total Balance™

**You don't have to have ADD & ADHD to experience the symptoms. Total Balance offers Emotional, Mental and Basic Nutritional Support for ages 4 & up**

**Can this be your child or you?**

- *Lack of Attention - Hyperactive*
- *Angry - Moody - Grouchy Having a hard time getting along with others*
- *Tired - Fatigued - Disinterested in school or any other normal activity*
- *Mentally unresponsive - Unfocused Poor studying capabilities*
- *Highly toxic from eating wrong foods or poor eating habits*

If you feel your child is a great child but can't get interested in school assignments or attention skills are lacking, the first step is to get that child in total balance.

DNR, Inc. has developed **Liquid Needle Total Balance** Topical and Oral Spray for children, teens and even adults who suffer from specific chemical imbalances.

**Children must be in balance to excel in studies.** Emotional, mental and physical balance are necessary for children to deal with the challenges of modern childhood. It is this natural balance that provides the body with the mechanism to treat itself and maintain all systems and functions necessary in sustaining excellence.

**The environment creates imbalance.** Our children's bodies were not designed to coexist with toxic environmental influences. Our children are constantly being bombarded with harmful electromagnetic frequencies (EMFs), chemicals in foods and toxic substance (chemical) emissions. These man-made influences are continually working to keep our children out-of-balance.

**Drugs are being overprescribed.** Millions of children who are simply out of balance from environmental influences are being treated with powerful drugs and medication. They are often misdiagnosed by physicians who are unaware of the body's balancing needs! We are hearing

Can this be your child or you?

Item TB405, 1 ounce oral spray  
Suggested Retail Price \$55

Item LNTB, 1 ounce drops  
Suggested Retail Price \$55

more and more about "new" conditions attacking children today. Attention Deficit Disorder, hyperactivity, fatigue, lack of enthusiasm, mood swings, and other names for dysfunctional behavior are being placed on children daily. However, when the body is in balance, it is able to react normally to stress related conditions.

**Poor diets lead to poor performance.** It is close to impossible for children today to have a proper diet. Junk food, genetically altered foods, pesticides, preservatives, etc. All may lead to nutritional deficiencies. **Liquid Needle Total Balance** offers basic nutritional support to help the body deal with improper diet.

**Total Balance** Oral Spray is easy to use and convenient. **Total Balance** Topical Application has been formulated to act quickly by applying directly on various trigger points that can help stimulate the electrical-chemical balance required to show quick response.

**FOR ADULTS, TOO!**

Many adults may suffer from these same out-of-balance conditions. These adults may find **Total Balance** to be an excellent solution for their special needs.

## **EVB™ Neutra-Spray®**

**The Hair Spray - Spray deals with the second most toxic area of your body**

**Developed to counter toxic and poisonous accumulations derived from chemicals in most hair sprays, shampoos, coloring, and permanent chemicals.**

**No one should be without it!**

Toxic chemicals and many electromagnetic fields can reverse your body's polarity and leave your entire body out of balance, fatigued and incapable of fighting off illness and disease.

When any powerful chemical or electromagnetic field alters the balance of the body's electrochemical system, NOTHING works correctly. From the immune system to the healing system and all other operating systems; Nothing seems to be functioning the way it should. When we were born our brains were designed to function with certain natural chemicals derived from the body itself, not accidentally from some bottle.

### **QUICK TIP**

*Neutra-Spray* is not just for countering hair chemicals, it has been shown to promote polarity balance, as well as provide balancing signals to all of the head points. If you normally apply *Liquid Needle* topicals to several points on your head, *Neutra-Spray* is the fastest, easiest way to balance them all with 3 quick sprays.

*Area affected by Neutra-Spray® shown in gray*

8 ounce bottle with Advanced Technology Micro-Fine Mist Sprayer Application

Item NS-136  
Suggested Retail Price \$33

Neurons (brain cells) are designed to perform within certain frequency ranges unhampered by powerful man-made electromagnetic fields.

Their alignment of energy signals to each other is paramount in maintaining health and balance. Our very lives depend on unimpeded undistorted signals functioning at their appropriate level.

Since there seems to be no way to escape the electromagnetic fields that create these neurochemical imbalances and since so many Americans are compelled to use hair products containing synthetic chemicals, DNR, Inc. has developed a Rebalancing Formula for the body's own electrochemical power plant. The product is called *Neutra-Spray*.

By spraying over the hair on the head, *Neutra-Spray's* powerful mist can help correct any polarity imbalance and help counter chemical toxicity brought on by synthetic chemical application to the head.

**USAGE:** Use each morning before starting the day and, if possible, after lunch. Hold bottle 8 inches from hair when spraying. Mist 2 to 5 sprays over hair, depending on amount of hair.

# Fabric Shield™

**Balance and protect the entire body while you sleep!  
An absolute "MUST" for everyone!**

*Fabric Shield* magnetically bonds to synthetic and natural fabrics to provide a constant balancing effect on the body whenever you are in contact with treated fabrics – raises the body's level of energy required to defend against EMFs\* and TSEs\*!

**Synthetic  
Materials**

**Electrical  
Appliances**

**Foam Rubber  
Mattresses**

**Office  
Equipment**

**Synthetic  
Upholstery**

## 24 Hour Protection!

**The entire body attracts the energy given off by any fabric article rinsed in *Fabric Shield***

- While Sleeping and Awake – the body is protected against man-made EMFs and TSEs while maintaining crucial balance.
- While Sleeping - the body relaxes, stores energy and maintains balance.
- While Awake - the body enjoys greater mental and physical capacity.

\* EMFs are Electromagnetic Fields which emanate from all electrical devices.

\* TSEs are Toxic Substance Emissions which emanate from synthetic materials such as foam rubber and polyester clothing.

## **Fabric Shield**

Provides a Protective "shield" for your body! Helps keep the body protected against EMFs\* and TSEs\* all day and night by treating washable items such as clothing, undergarments, pillow cases and sheets. Add one tablespoon to washing machine at the beginning of the final rinse cycle.

Item F109QT, 32 ounce bottle, Suggested Retail Price \$60

## **Fabric Shield as a Spray**

Counters harmful chemicals and materials in your environment. Formulated for use on carpets, upholstered furniture, mattresses, car interior upholstery, and most other synthetic materials. Dilute one part *Fabric Shield* Spray to six parts water in a spray bottle and lightly mist onto fabric.

# Liquid Needle® ChekMate®

check·mate (chĕk'māt') tr.v. 1. To attack in such a manner that no escape or defense is possible, thus ending the game. 2. To defeat completely.

- American Heritage Dictionary

## Muscles - Ligaments - Tendons - Joints

### Joint Pain Heads the List

They tell us some 48 million Americans suffer from some form of arthritis. There are probably that many different modalities of treatment that have been devised, invented, formulated or created for the relief of this debilitating condition. While some surely seem to work satisfactorily, most seem to be nothing more than unfulfilled hope.

### Injuries

*ChekMate* is now used by athletes and those with injuries and swelling.

In the early stages of developing *ChekMate*, we focused on the fact that we were not in the business of making medicines, drugs or other types of products designed to temporarily treat a symptom. Our goals have always been to produce products that are harmless under all conditions and are directed toward the imbalancing cause rather than the symptom of an ailment. This means that in almost every case the extracation of some toxic materials is essential—coupled with the return of balance. Without this balance, a body cannot maximize its ability to deal with painful areas of the body.

### *ChekMate* Spray

With DNR's advanced technology micro-fine mist sprayer, *ChekMate* provides instant rebalancing relief to any particular area of concern, as well as deals with the localized accumulation of toxic chemicals.

**Usage:** Hold bottle about 12 inches over desired area and spray one or more sprays depending on the size of the area. If one application is not enough, reapply after 5 minutes up to two more times. Use from 1 to 8 times per day based on need.

# Liquid Needle® Body Soaks for Toxic Bodies

**Body Soaks Balance as They Cleanse the Body!**

DNR manufactures over 20 different Body Soak formulations. Each one relates specifically to a condition or series of conditions. While each formulation can balance the body and increase vitality, their major function is to free up blocked energy pathways. As these processes are all taking place, toxic accumulations can be safely removed in a unique manner through the pores of the skin. Some users may notice red bumps or light skin rashes as early as their first soak due to the natural process of cleansing through the skin. Any other method could break down toxins from the walls of fatty tissue and circulate them through the blood stream, where they may relodge themselves into the body's organs, glands, and tissue.

Body Soaks on this page come in 32 ounce bottles  
Suggested Retail Price \$52  
SAVE when you buy all 4 in the Body Soak Four Pack. #S4PAK Suggested Retail Price \$156.00 (Save 25%)

The 4 main soaks are shown here. The others are described throughout this guide.

## Liquid Needle Body Soak Clear

**Hormones - Balance - Stress Emotions - Sleep**

Maintains emotional and energy balance. Relaxes before bedtime. Excellent for PMS, Menopause related occurrences.  
Item 105-C, 32 ounce bottle

## Liquid Needle Body Soak Gold

**Stress - Cleansing - Breast Implants Relaxing**

Provides maximum detoxification benefits for toxic chemicals such as silicone. Use at night. If highly toxic you can usually see the bath water change color as the cleansing and rebalancing takes place. When the color of the bath water no longer changes, you may begin soaking with Body Soak Clear and/or Blue.

Item 105-G, 32 ounce bottle

## Liquid Needle Body Soak Blue

**Vitality - Balance - Energy - Pain Fatigue**

Formulated for those wanting a feeling of increased energy and vitality. *This Soak Should Only Be Taken In The Morning!* Developed for M.S. and fatigue sufferers.  
Item 105-B, 32 ounce bottle

## Liquid Needle Body Soak Amber

**Pain - Cleansing - Inflammation Balance - Joint Pain - Rheumatoid**

Specially formulated for those individuals severely out of balance due to the symptoms of pain and stress. Helps the body deal with soreness, deep pain and localized pain.  
Item 105-A, 32 ounce bottle

## **Liquid Needle® Foot Soak**

***For those individuals unable to soak in a bathtub or needing help with reestablishing energy movement to the feet, ankles and toes.***

Everyone should have the benefits of cleansing, unblocking and balancing. Those individuals who are unable to take advantage of *Liquid Needle®* Body Soaks should use this product. *Liquid Needle®* Foot Soak provides the balancing benefits of Body Soak Clear, Blue and Gold.

An excellent product for any irritation or problem with the feet or ankles.

### **Instructions:**

Add 4 ounces of Foot Soak to roughly 2 ½ gallons of warm water in a 5 gallon container. Soak both feet 6 inches above ankles for 25 to 45 minutes. Soak every third night as needed.

### **OR**

Soak towel in above solution and wrap around feet and ankles.

### **Liquid Needle® Foot Soak**

**Balance - Vitality - Pain  
Stress - Emotions**

Item LNFS, 32 ounce bottle  
Suggested Retail Price \$60

For those long-term users of regular Body Soaks, Foot Soak makes an excellent “Extra Strength” Body Soak. Just use as you would your regular Body Soak for cleansing, balancing the entire body and unblocking any energy pathways.

### **QUICK TIP FOR REFLEXOLOGISTS**

*Liquid Needle* Foot Soak is a wonderful tool for reflexologists. All the reflex points on the top and bottom of the feet will feel the stimulating effect brought on by *Liquid Needle* Foot Soak’s ionically charged formulation.

# **Liquid Needle® Sports Products**

## **Physical, Mental & Emotional Balance**

***Without medicines, drugs or steroids...These Liquid Needle® Sports ReBalancer Products can help establish total balance during & after practicing, competing or performing. Can also be used for those who expend abnormal energy for any purpose.***

Professional Athletes, Serious Amateurs & Fitness Enthusiasts naturally seek maximum stamina, pain tolerance, alertness and focus during physical exertion, as well as quick recovery afterwards. DNR has developed two products that help your body achieve physical, mental and emotional balance for optimum energy and performance while working out or competing.

Before you can perform any physical activity and expect to excel, you must first obtain physical, mental and emotional balance. When your body is in balance, it can produce a maximum source of vitality, energy and stamina. When your body is in balance, it can better deal with it's own pain, soreness and discomfort. When your body is in balance, it can enhance concentration, focus and even determination.

Each *Liquid Needle Sports* ReBalancer is a particular formulation of charged fragmented mineral particles suspended in an aqueous solution. Each product has it's own purpose for balancing your body before and after any physical activity.

## **Sports Body Soak**

### **Alertness - Concentration - Stamina - Vitality Energy**

When used as directed the night before an athletic event or activity, this body soak helps the body restore its physical, mental and emotional balance. By restoring this balance, the body is best prepared for any physical activity.

When used as directed after an athletic event or activity (at bedtime), this body soak cleanses the body while helping the body restore it's overall balance. By restoring this balance, the body is best able to recover from the results of physical exertion.

Item SBS, 32 ounce body soak, Suggested Retail Price \$52

## **Sports ReBalancer Topical**

### **Strength - Stamina - Energy - Pain - Breath Control - Discomfort**

Helps the body restore its own physical, mental and emotional balance. When in balance, the body can best deal with its own pain and discomfort, as well as maximize energy, strength, concentration, stamina and breath control. Use on Power Points described on the Sports ReBalancer brochure.

Item SRT, 1 ounce drops, Suggested Retail Price \$48

# Parasite Pak

## A Simple Regimen for Parasites

*Enhanced and Upgraded with over 100 New Electrically Charged Signals Earmarked to control parasitic activity.*

**You can literally be eaten alive by Parasites! A major threat to your well being.**

Recent medical studies estimate that from 85% to 95% of the North American population has at least one or more types of parasites living in their bodies.

### There are two basic types of parasites

The large worms, called helminths or intestinal nematodes, can travel through your blood stream and infect any organ, gland or part of the body. Depending on the type of worm, some can grow several feet in length. Each day they can lay thousands—even millions of microscopic eggs. All of which can stick to our intestinal walls.

The small ones are called protozoa. These parasites eat and excrete wastes every day. They not only eat our food, but many eat human tissue. They also can eat the protein coating on our nerves.

Parasites release toxic wastes that are actually their feces and urine. Parasite urine is practically pure ammonia. This waste can affect the kidneys, liver and immune system.

### How do we get parasites?

If 85% to 95% of North Americans have parasites, they must be very easy to get! The primary way is from our food and water (over 50% of it is infected). Organic food, often grown with animal manure, may be a greater source of parasites than commercial food.

The eggs of parasites are microscopic and are the real danger. They can be passed sexually, as well as through shaking hands, walking barefoot, eating or drinking from someone else's glass, bottle, can, fork, etc. Parasites can also be contracted simply by swimming in polluted lakes, rivers, streams or even by going to the beach.

**Parasite Pak, Item PAR-REG, includes:**

- 2 PAR-134 Body Soaks, 32 ounces
- 2 PAR-534EX Oral Drops, ½ ounce
- 2 SKN-524EX Oral Drops, ½ ounce
- 1 HBH CLN-603EX, 8 ounce

**Suggested Retail Price \$314.40**

We can get parasites from our pets. Anyone who is sick or has a health problem should try to remember when it started and when he or she got the pet. They may find it was around the same time. Every time your pet licks its anus, it is possibly putting thousands of parasites on its tongue. When pets lick you, those eggs are going right onto you! The link between a sick child and a new puppy is seldom realized.

**NOTICE:** There are 2 immediate goals for those dealing with parasites. First, get rid of them as swiftly and safely as possible. Don't try to speed up their dismissal. Second, stay free of them. They are prone to return.

### Some symptoms of parasitic infection:

**Inability to gain or lose weight; forgetfulness; depression; chronic candida and yeast infections; chronic fatigue and viral infections; chronic sinus or ear infections; floaters in the eyes; urinary tract infections; back, thigh, shoulder or navel pains; prostate problems and sexual dysfunction in men; itchy ears and nose; anal itching, especially at night.**

*See page 59 for the Parasite Pak Regimen & Parasite Maintenance Regimen.*

# Yeast - Fungus - Candida Products and Regimen

When the balance of good and bad bacteria in the intestines is lost, yeast and Candida can ensue. Often antibiotics or other harsh chemicals are responsible for years of suffering. DNR has developed a new regimen with new products that enhance the body's ability to fight yeast and bring a specific balance back to the intestinal tract.

## Body Soak Gold Extra Strength

### Yeast - Fungal - Candida

Especially formulated for those with chronic yeast-type attacks. Works quickly and effectively to restore digestive balance and major defensive properties. Fortifies the body's ability to fight off and overcome the spread of fungus and infection.

## INT-602 Extra Strength-Oral

This herbal - botanical - homeopathic blend is our most potent means of dealing with the spread of yeast-type conditions. Taken orally 3 times daily during and after Body Soak Gold-EX soaks, INT-602EX can calm down the appearances of yeast or fungus activity.

## SkinGel™ - Topical

Use this all-natural gel on any topical outbreak of the skin caused by yeast or fungus infection. Especially helpful on the hands, fingers and nails. Calms and soothes the appearance of these areas quickly and effectively. Highly concentrated and no fragrance.

### QUICK TIP

For fastest results use *SkinGel* at least 6 times per day, especially before bed. Apply a small amount to any area of concern.

Item GEL-138, 2 ounce gel  
Suggested Retail Price \$20

Item INT-602EX, 8 ounce bottle  
Suggested Retail Price \$52

Item 105-GEX, 32 ounce body soak  
Suggested Retail Price \$77

Item EVB-137 8 Oz. \$40.00

GOLDEX Start PAK  
Suggested Retail Price \$184.00

## Regimen ... After using DNR's EVB for 4 days, use:

**Gold Soak-EX** - Use 4 ounces in each soak for first 2 soaks, then 8 ounces in each soak for the next 7 soaks (every other night for best results). Use 8 ounces in each soak twice weekly for next 4 soaks.

**INT-602EX** - While taking Gold Soak-EX regimen above, take 1 teaspoon 3 times daily of INT-602EX. After concluding soak regimen, take 1 to 2 teaspoons daily for current and future protection.

(See EVB on Page 7)

## **DETOX BOOSTING REGIMEN**

### **For Chemicals and Heavy Metals in Two "Easy to Use" Products**

During controlled studies, 100% of human body fat samples tested from 9 national regions contained doses of chemicals including *Styrene* (Styrofoam), *Dichlorobenzene* (mothballs, household cleaners and deodorizers) *Xylene* or *Benzene* (found in paints and gasoline) and *DDT*, which has been banned since 1972. *The five most toxic trace metals found are: lead, mercury, aluminum, cadmium and beryllium.* *These metals are suspected in at least 50% of all deaths in the U.S. and much of the disabling diseases.*

\* EPA Report source: National Human Adipose Tissue Survey FY82, EPA-560/5-86-039, Dec. 1986

**Possibly the most urgent need in your life is getting rid of heavy metals and chlorinated solvents from your cellular tissue - But, In A Safe, Natural Manner.**

### **COF-130EX Body Soak**

An excellent way to help balance the entire body as well as assist the body in beginning its own natural cleansing process of toxic chemicals and heavy metals.

*The average person has 200 plus chemicals in their body fat.* Quick weight loss can recirculate them and possibly cause great harm. COF-130EX Body Soaks cleanse outwardly and safely through the pores of the skin.

### **COF-520EX Oral Supplement**

A useful tool to be used every day when taking the Detox Boosting Regimen. Not only does it assist the body with its natural cleansing, it can help with balancing and initiating toxic release.

**Each Detox Boosting Regimen can:**

- Stimulate Acupoints and Trigger Points

Item COF-520EX, 1/2 ounce drops  
Suggested Retail Price \$39.60

Item COF-130EX, 32 ounce body soak  
Suggested Retail Price \$77

Item COF-PAK  
Suggested Retail Price \$151.60

21 Soak Regimen Item COF-REG  
Suggested Retail Price \$517

Includes:

- 5 COF130 EX Body Soaks
- 2 COF-520 EX-2 Drops
- EVB-137EX FREE

- Stabilize Immune Functions
- Unblock any Clogged Energy Pathways
- Boost the Release and Removal of Toxic Metals and Chemicals

**End Results Include:**

- Cellular and Functional Balance
- Immune System Maximized
- Reduced Stress
- Healthier and Cleaner Tissue
- Greater Lymph and Blood Circulation

See pages 59-60 for the **Chemical & Heavy Metal Toxicity Cleansing Protocols.**

*See page 61 & 62 Detox Boosting Regimen*

## Products for the Lymphatic System

***Every aspect of our youthful and healthy looking appearance is determined by the effectiveness of lymphatic functions.***

Almost everything we eat and drink has been polluted to the point that the natural defense mechanisms of our bodies can't work correctly.

Before environmental pollutants began to poison our bodies at a faster rate than we could naturally extricate them, our lymphatic systems functioned effectively and fast enough to maintain a youthful and healthy appearance. Our bodies never felt tired and our minds weren't so confused and unfocused. Our short term memories were noticeably sharper and keener. We didn't experience constant allergy attacks, viral infections or fatigue.

Needless to say, with more people using more prescription drugs and those exercising less (as well as the above mentioned), the lymphatic system has turned into a dormant nonfunctioning system. A system that is toxic, unstable, and most of all, severely impaired.

The circulation of lymph fluids and their T-Cell and B-Cell components are essential in fighting off infections, allergies, pathogenic invaders, diseased and cancerous cells and environmental toxins. The health of the entire body depends on the full time actions of the lymphatic system. The lymphatic system is wholly responsible for carrying antibodies to areas being attacked by viruses, bacteria and toxic agents.

Most everyone has heard that the circulation of blood through the skin helps maintain a youthful healthy looking skin. But, more important to the maintenance of a youthful healthy looking skin is the lymphatic system's ability in draining off waste particles embedded in layers of skin tissue.

Whether you are one of those wishing you could restore that youthful, healthier vibrant

Item LD-528, 1/2 ounce drops  
Suggested Retail Price \$27.20

Item 105-L, 32 ounce body soak

appearance, or one who simply wishes to have an immune system the body can count on when infectious diseases attack, you should consider DNR's *Lympha* Products for their role in restoring and maximizing the lymphatic system.

***Lympha Soak and Lympha Drops help the body:***

- Initiate Drainage & Cleansing
- Increase Lymph Flow
- Utilize Cancer Fighting Cells
- Balance All Immune System Activity
- Restore Youthful, Healthy Appearance

*See page 62 for the Lymphatic System Regimen.*

## Products for the Respiratory System

***The Problem: Almost all Lung Conditions and Diseases are brought on by 300 Medicines including Prescribed Drugs, Air Pollution and Tobacco Smoking***

***The Solution:*** RES-105 is a new Body Soak created especially for those who are taking or have taken any of the 300 medicines listed on the enclosed sheet. The RES-105 Body Soak is also for anyone who is now breathing or has regularly breathed second hand tobacco smoke. The FDA has recently listed second hand smoke as a *known* carcinogen. In the past, it had been classified as a *possible* carcinogen.

As early as 1965, cancer of the lung and bronchus accounted for 46% of all cancers in the United States in men. Now we know that someone else's cigarette smoking affects women, men and children who are not smokers. Lung cancer, asthma and bronchitis have all risen over the last 30 years. RES-105 Body Soak has been formulated to cleanse vulnerable areas and cavities in the lungs that may be damaged or affected by inhaled or absorbed harmful agents.

RES-105 Body Soak has been formulated to work synergistically with the RES-SYS Extra Strength. RES-SYS-EX has been upgraded to deal differently, but appropriately, with the same conditions as RES-105. Both products can be taken during the same regimen for faster results, especially when dealing with an existing condition. The soak should be taken at night. Its primary role is to counter the impact of all harmful substances and release chemical agents needing to be safely discharged through the pores of the skin. RES-SYS-EX, taken with water, deals more with countering harmful agents and restoring the energy balance needed to maximize the respiratory system functions.

Your respiratory system is one of your body's most valuable assets. Your life depends on your respiratory system's ability to bring air and blood together so that oxygen can

RES Body Soak  
Item RES-105, 32 ounce soak  
Suggested Retail Price \$77

**Recommended:**  
Respiratory Protocol Pak  
2 RES-105 Body Soaks  
2 RES-SYS-EXs  
Suggested Retail Price \$258

be added to your blood, and carbon dioxide can be removed. Toxic coatings on the lung's inner surfaces can hamper its ability to dispose of carbon dioxide. If the lung's pumping system has been harmed by any kind of drug, herbal formula or any toxic substance, it lessens its ability to supply blood to the body and dispose of carbon dioxide.

The internal surface of your respiratory system is approximately 100 square yards. This is equal to a 30 foot by 30 foot room in your house. However, this area is so compact in your body that the least little imbalance or restriction of blood flow caused by toxicity can result in permanent damage to the lungs. RES-105 and RES-SYS-EX use their energized signaling capabilities to reach every area of the respiratory system requiring help. What's more, they are safe.

*See page 62 for the Respiratory System Regimen.*

## Products for Liver Toxicity

**Your liver was not created to metabolize or process man-made chemicals or heavy metals!**

The Liver is appropriately named. You cannot *live* without it constantly performing its over 500 vital functions. Weighing about 3 pounds and the size of a football, it is your body's largest organ, except for the skin. Eighty-five (85) per cent of the blood that leaves the stomach and intestines passes through the liver first. Here is where carbohydrates, proteins, fats, vitamins, and minerals are processed and converted into substances the body can use.

Carbohydrates are the body's primary source of energy. The liver maintains this source of energy. Regardless of nutritional intake, without proper liver functioning the body cannot convert fats, proteins and carbohydrates into energy. Most of us know how it feels to be deficient in energy.

Your liver was not created to metabolize or process man-made chemicals or heavy metals. These substances can be collected in the liver and wreak havoc throughout the entire body. Today, we know the liver is especially vulnerable to excessive alcohol, prescription drugs, synthetic chemicals, excessive vitamin and herbal intake and heavy metals.

Anyone who has been on any combination of medicines or drugs longer than 15 months is a prime suspect for liver poisoning. Anyone exposed to environmental or other forms of mercury, arsenic or lead for any period of time stands a significant chance of having a dysfunctional liver.

DNR is possibly the only company utilizing a technology that is capable of targeting the toxic and poisonous areas of the body and removing those toxicants safely from the body. The liver is one of the most delicate and difficult organs in the body to deal with, as it is usually more toxic and fragile than most other organs. Great care must be taken when reestablishing its integrity and balance.

Suggested Retail Price \$337

LVR Start PAK Retail Price \$203.60

DNR has developed a safe and effective Liver Cleansing Regimen capable of boosting the body's ability to detoxify the liver of heavy metal toxicants, synthetic chemicals and other lipid based substances. In creating this new regimen, it was necessary to develop and produce a totally new Liver Detox Body Soak. While it is subtle in its action, it provides the energetic and balancing support the liver needs to carry out its own cleansing.

*See page 58 for the Liver Cleansing Protocol.*

## **CAN-133 and CAN-509EX**

### ***Companion Products for Those Toxic from Chemotherapy and Radiation***

Over the years we have seen the debilitating effects chemotherapy and radiation have had on the body and its ability to recover and get well. In medical science's attempt to arrest mutating cancer cells, they have developed toxic synthetic drugs strong enough to kill good and bad cells alike.

#### **Chemotherapy**

DNR, Inc. has played a major role in fighting toxins that come from chemicals used in this type of therapy. By developing Body Soak products that are directed toward allowing the body to cleanse itself from this unnatural exposure, countless people have enjoyed an improved quality of life.

All of the DNR, Inc. Body Soak products were formulated to counter toxic exposures. However, since there are so many distinct and severe side effects that challenge the chemotherapy patient, we decided to develop a special body soak with their specific needs in mind. This new product has all the features of Body Soak Gold and Amber coupled with new electrochemical signals designed to help the body counter and cleanse chemical therapeutic toxins in a safe natural manner.

#### **Radiation Therapy**

When body tissue has been subjected to powerful radiation, it begins to break down and its normally healthy cells begin to die. The immune system shuts down and help is needed so the body can reestablish balance and vitality. CAN-133 and CAN-509EX were specifically developed to bring about a natural turn around concerning these particular needs.

Other DNR products to consider include CEL-517, TOX-518, PYC-505, BAR-504, MIN-521 and VIT-506.

Item CAN-133, 32 ounce soak  
Suggested Retail Price \$77  
Item CAN-509EX, 1/2 ounce drops  
Suggested Retail Price \$39.60  
Item CAN-PAK  
Suggested Retail Price \$151.60

### **CAN-509EX**

Extra Strength CAN-509 is an excellent companion product for CAN-133.

Highly charged and encoded with the energy signals derived from Black Walnut, Black Walnut Green Hull, Worm Wood and 52 other natural botanical sources. This special formulation has been highly charged and oxygenated to perform quickly and effectively.

Used for cleansing bodies faced with fighting parasites and conditions caused from free radical activity.

Plus, this formulation is enhanced to include Extra Strength benefits derived from CAN-133 Body Soak. Use 5 times per day, 6 drops each time in 3 ounces of water.

## 105-STA Body Soak

### Prostate - Adrenals

Formulated to enhance the body's ability to deal with prostate and adrenal issues caused by imbalances or low vitality in those areas. Maintaining a healthy prostate and adrenals can be challenging the older we become. The body can better deal with sleeping patterns and prostate conditions when a natural balance is established. When in balance, natural functions of the adrenals become more normal.

#### Usage:

For severe prostate or adrenal issues:

Take a 4 ounce 105-STA Body Soak every night for the first 10 nights. Then, follow directions on the bottle.

Take 9 to 12 drops of STA-516EX 3 to 5 times per day for the above 10 day period. Then, follow directions on the bottle.

Item 105-STA, 32 ounce soak  
Suggested Retail Price \$52

Item STA-516EX, 1/2 ounce drops  
Suggested Retail Price \$39.60

## STA-516EX Oral Drops

As with many of the DNR Oral Supplements, STA-516EX Oral Drops is formulated to enhance the body's ability to trigger the release from tissue of toxins that are known to cause issues with the prostate and adrenal systems. While using the 105-STA Body Soak in combination with STA-516EX drops, the body is at its optimal ability to extricate these toxins through the pores of the skin and the sebaceous gland of the hair follicle.

*See page 58 for an additional protocol for Prostate - Urinary Difficulty.*

# DNR, Inc. StopTox Program

## A 36 Day Cleansing Program for Past Smoking Toxicity

The DNR *StopTox* Program consists of a simple regimen for the cigarette smoker trying to regain a healthy vitality. DNR, Inc. has prepared special products to help the body cleanse itself after years of smoking cigarettes.

This regimen consists of cleansing soaks of Body Soak CIG-131 and Body Soak TAB-132, and oral supplements CIG-522 and TAB-523. This regimen is designed for those who maintain their normal eating habits. Other DNR oral supplements can be taken during this regimen.

### CIG-522 & Body Soak CIG-131

These products have taken years to complete. They reflect our best efforts in creating products that can assist the smoker when establishing the will power and energy necessary in dealing with the discontinuation of smoking. CIG-522 is an oral supplement that should be used whenever it is necessary. CIG-131 Body Soak may help the body cleanse away accumulated chemicals.

### TAB-523 & Body Soak TAB-132 (for those fearful of gaining weight)

These products were originally developed to aid the cigarette smoker who has been afraid to quit because they didn't want to gain weight. TAB-523 is an oral supplement that is specially formulated to help encourage a feeling of control over their dietary choices.

TAB-132 is a Body Soak composed of a special blend of minerals charged with specific signals designed to balance your body. When the body is in balance it is better able to maximize energy utilization and minimize intake demands.

- STOP TOX PAK Item ST-100**  
Suggested Retail Price \$233.20
- CIG PAK (3) CIG-131 (2) CIG-522**  
Suggested Retail Price \$310.20

Follow the suggested *StopTox* regimen below:

#### ORAL SUPPLEMENTS:

Take CIG-522 and TAB-523 three to five times daily and **ExStress Oral Spray** whenever necessary during your *StopTox* Program.

#### SOAKS:

Each quart of CIG-131 and TAB-132 holds 5 soaks.

Take 5 soaks of CIG-131 four days apart for 16 days. Follow the instructions on the bottle. Water may become darker and smell. Continue soaks for as long as water changes color.

After your last CIG-131 Body Soak, begin taking a regimen of 5 soaks of TAB-132 four days apart for 16 days. Follow the instructions on the bottle.

## ***When Helping Your Body Deal with Weight, Cellulite & Excess Inches - Use DNR's TAB Products***

### ***Base Metabolism ... The Key***

It seems when we are mentally ready to attack the habit of overeating, we are quickly confronted with the reality that we're already overweight, our skin is stretched out of shape and cellulite has taken over our thighs and buttocks. Our determination quickly fades and we give up. Then on top of that, the guilt we feel about "failing again" makes the problem even worse.

DNR's TAB products help with this problem physically, emotionally and cosmetically.

First, DNR, Inc. has developed TAB-523, an oral supplement that helps the body maintain its own maximum metabolic balance. Researchers today link obesity not to will power but to sluggish metabolism. They feel it is the body's metabolism that determines the chemistry that produces fat or thin bodies. This formulation also contains physical and emotional balancing signals similar to those used in *Liquid Needle* Original, Brown Label and PRO-503.

Second, DNR, Inc. has formulated Body Soak TAB-132, a special new soak developed to cleanse away epi-toxin buildup from skin tissue as it tightens and firms the body. It reduces the appearance of cellulite even before that first pound comes off. This can be a great motivator for those who have given up on a diet in the past because they never saw any initial improvement! Like TAB-523, it too has specific signals that balance the body so it is better able to enhance its metabolism and counter the signs of fatigue and stress.

Item TAB-132, 32 ounce body soak  
Suggested Retail Price \$77

Item TAB-523, 1/2 ounce drops  
Suggested Retail Price \$39.60

#### **Usage:**

Use 3 drops of TAB-523 in 3 ounces of water 3 times per day throughout your program. Use TAB-132 every fourth day beginning with first day of program.

See page 41 to learn about our newest TAB product: ***TrimTab*** Oral Spray.  
It's so vital, it needs it's own page in this guide.

***Nervous System -  
Irritability - Anxiety -  
Grief - Depression -  
Confusion - Shock - Brain***

Are some of the Key Words used to describe the New 105-NRV. While environmental toxins affect our nervous system every day, it's good to know that DNR has developed a companion product to the NRV-SYS.

As with all DNR Products, they have been designed to enhance the body's ability in triggering the release of toxins from tissue and extricating them from the body while elevating it's energy flow through pathways and establishing balance.

As we travel through life, we often come to the regretting choice of some conventional health care. Our children are forced by schools and local government to be immunized and many times, to take drugs for what they call ADD and ADHD. Doctors prescribe antibiotics to address a sickness when we all know the immune system will take care of it.

The sad truth about the drugs are that they all are made of synthetic chemicals. Some are the same as they use to manufacture plastics or gasoline.

These chemicals have no place to go once the body has used their masking effect, so they are known to attach themselves to soft tissue and in most cases, the lipid type tissue surrounding the nervous system.

105-NRV and its HBH Series companions, NRV-SYS and NRV-SYS EX, when used as directed, is formulated to enhance the body s' ability to deal with these toxins

through its heightened use of cellular communication at the sub-atomic level.

By raising the vitality and clearing energy pathways directly related to the nervous system, they can promote many tasks that the body must take to ensure less irritability, anxiety, depression, confusion and shock.

The brain relies on the rest of those neural pathways to carry its signal to other parts of the body without blockages from toxins that can distort and interfere with its message.

**Suggested Retail Price \$52.00**

**DNR, Inc.**

## **Endocrine Detox Regimen**

*The Endocrine System is one of the body's most vital systems. It demands a well balanced cellular equilibrium!*

In recent years, scientists have discovered that certain commonly used chemicals can disrupt our endocrine systems. Endocrine disrupting chemicals or endocrine toxicants, can upset this communication system in a variety of ways. They can mimic natural hormones and send false messages, or block hormone receptors that receive messages. While researchers are only beginning to understand the health effects of these chemicals, they have already observed that hormone disruptions can result in damage to the brain, immune and reproductive systems. At this time, we are aware of over 137 known endocrine toxicants that humans come in contact with every single day of our lives. The most common are styrene, carbon disulfide, dichloromethane, trichloroethylene, lead and benzene. We contact these toxicants in the air we breathe, the water we drink and even the things we touch.

It is virtually impossible to completely rid our lives of these toxicants because their use is so prevalent in our society. Endocrine Toxicants may cause diseases such as hypothyroidism, diabetes mellitus, hypoglycemia, reproductive disorders, and cancer. Exposure to endocrine toxicants PCB's and DDT have caused a host of toxic effects in wildlife, including impaired reproduction and development. Other endocrine toxicants, such as pesticides and dioxins, are being studied for their possible role in promoting hormone-induced cancers (such as breast cancer) and in lowering sperm counts and male fertility. Endocrine Toxicants can cause permanent damage to the reproductive systems of both men and women. A man's sperm can be damaged genetically and be coated with the toxicant, and a

woman's ovum can be damaged in the same way. An unborn child and those in subsequent generations may suffer because of these toxicants. Food in plastic containers, even the ones frozen dinners now come in contain chemicals that can be ingested with the food and could cause great problems for an unborn child and you. Meats and milk from the store contain rBGH. (Recombinant Bovine Growth Hormone). rBGH, is a hormone to increase milk production in cows. It causes mastitis requiring lots of antibiotics in cows that can be passed on to humans, which in turn, can create new incurable diseases.

The Endocrine System is one of the body's most vital systems. It demands a well balanced cellular equilibrium! The new Endocrine Detox PAK can help raise the body's vitality and assist the body in bringing about hormonal balance naturally by expediting the extrication of endocrine toxicants.

# ElectroCardio™

**Body Soak**

ElectroCardio enhances the body's ability in the support of arterial cleansing by using light energies from select energy sources!

Some of these include:

- Vitamin A
- Vitamin C
- Vitamin E
- Vitamin B-1 (thiamin)
- Vitamin B-2 (riboflavin)
- Vitamin B-6 (pyridoxine)
- Vitamin B-12 (cobalamin)
- Niacin
- Niacinamide
- Pantothenic Acid
- Folic Acid
- Biotin
- Choline (bitartrate)
- Inositol
- dl-Methionine
- Magnesium (oxide)
- Potassium (chloride/citrate)
- Manganese (gluconate)
- Zinc (gluconate)
- Chromium (proteinate)
- Selenium (proteinate)
- Betaine Hydrochloride
- 1-Cysteine Hydrochloride
- Thymus concentrate
- Spleen concentrate
- Adrenal concentrate

A sufficient intake of each of these nutritional factors can enable the body to produce a number of by-products of intermediate metabolism that assist in arterial cleansing and other immune functions. These by-products

While developing this cardiovascular body soak, we also upgraded the CAR-SYSEX and HEA-508EX to include extra energies from these sources.

Buy all three products as a pack. (Item **EC-PAK**).  
**EC-105**, **CAR-SYSEX** and **HEA-508EX**

One of each item

**Electro Cardio PAK**

**Suggested Retail Price \$143.60**

## Suggested Regimen for the ElectroCardio Protocol.

1. Start by using EVB water additive as directed on bottle.
2. Add 6-12 drops of HEA-508 EX in 3 oz. water or juice and drink 3 times per day.
3. Take 1 teaspoon of CAR-SYSEX in 1 oz. of water. Swish in mouth a while and swallow until 1 oz. is gone. Do this twice daily. Please take it separate from the HEA-508EX, waiting 5 minutes in-between.

4. After 3 days of above directions, you may now begin the ElectroCardio™ Soak. Soak for 30 minutes in warm water (not too hot) each Monday, Wednesday and Friday nights. Take the weekend off. Do this for 21 soaks.

Note: If 4 oz. too much to start with, use 2 oz. until you can work up to 8 oz. per soak.

5. Use E116 to balance yourself on the eight points before getting into the tub each soak night, and rebalance yourself with the E116 after getting out of the tub.

## ***How to Lose Weight? EAT LESS...WITHOUT BEING HUNGRY!***

***No need to have hunger pains from eating less***

**NOBODY** wants to look unattractive. But when your metabolism is sluggish and your metabolic processes are out of balance, it's hard not to overeat.

In a recent study conducted by Diamondhead Laboratories, 21 people were randomly selected and instructed how to use *TrimTab* oral spray twice a day. At the end of 10 days, 90% went through the entire 10 days eating *less* food and feeling no hunger. Seventy percent (70%) had no desire to snack, 66% felt energetic and 57% ate less than 3 meals each day.

What makes the findings of this study so newsworthy is that most overweight people have a difficult time curbing their snacks because of hunger pains. When you balance and optimize your base metabolism, your body better uses what you eat, so you require less food and calories without feeling hungry. Now, there is no need to feel irritable and hungry. *TrimTab* is simple and easy to use.

*TrimTab* oral spray is the safest, simplest and most effective way to help the body optimize metabolic balance so you can control your eating and snacking habits. Simply spray 3 sprays of *TrimTab* oral spray into your mouth at breakfast time and again after lunch-time. That's all you do.

*TrimTab* contains no harmful chemicals, herbs or adulterants. *TrimTab* is a charged mineralized water-spray solution that releases energized signals that trigger metabolic processes in the body. **From your very first application you will notice how satisfied you feel regardless of how little food you eat.** The key to reducing fat accumulations is for the body to stabilize and optimize its metabolic processes so that it better uses what you eat.

**The vast number of people having a difficult time losing weight are suffering from the body's inability to metabolize food intake**

Item TT-140, 1.1 ounce oral spray  
Suggested Retail Price \$50

to the fullest. When your metabolism is out of balance and sluggish, you may feel hungry and tired throughout the day and restless and hungry at night.

With today's hectic lifestyles, our bodies may not be able to efficiently metabolize foods and convert them to energy. Many of us find ourselves constantly eating, trying to satisfy our hunger or that ravenous craving that seems to continue into the night. The problem may be that our base metabolism isn't converting enough food into energy and our food is turning into fat.

Use *TrimTab* oral spray and follow the simple directions on the spray bottle. It helps your body balance and optimize your base metabolism so that your body can better convert your food into the energy you need.

***TrimTab* utilizes electrically charged energy signals to give your body the control it needs.** Not enough to shock anyone, but enough to **help optimize and balance metabolic processing.**

DNR recommends spraying three sprays of *TrimTab* into the mouth twice daily. **For best results, use *TrimTab* oral spray in the morning** before breakfast, and again between lunch and dinner for the body's late night snack support.

**From your very first usage you will notice how little food you need and how satisfied you feel.** The key to reducing fat accumulations to the body is its ability to stabilize and maximize the metabolic processes so that what you eat is better used.

# Liquid Triggers™ for Practitioners and Physical Therapists

**You Can Feel It Start to Work Instantly!**

*(See pages 63 & 64 for Liquid Triggers Tips)*

The spine is the “electrical junction box” for the entire body. Every system, organ, and function of the body is directly linked to one or more vertebrae. Therefore, the spine is the body’s most direct and effective route for dealing with health conditions.

DNR *Liquid Triggers*™ solutions deal directly with the areas and problems that confront practitioners every day. Each liquid solution moves charged energy signals to the central point of a particular pain or illness.

Modern Health Care Professionals are trained with a knowledge about the body as it relates to the central nervous system and the movement of energy to vital areas. They have used this knowledge of the spinal column to resolve or treat emotional and physical conditions for years. They understand the complex make-up of the body’s communication system and how it relates to wellness. We can all take notice of the fact that this new industry of modern day practitioners has increased some 800% during the last 20 years. However, this does not begin to speak to the enormous influence they have had on the way we now see the health recovery process.

Each area or part of the body resonates at its own distinct frequency signal or vibration that is unique to that particular organ, gland, system or cell. When out of balance, toxic or experiencing blocked energy movement, these areas begin to resonate or vibrate weak and distorted signals that can even be resonating at an *inappropriate* frequency. This can often create a miscommunication which can lead to a malfunction or no function. *Liquid Triggers*™ solutions are electrically charged and encoded with cellular matching signals that are capable of regulating and increasing the strength of the signals coming from almost any deficient area of the body.

**Liquid Triggers™ Product Kit  
Item LTKIT, all 26 products  
Available to DNR Dealers Only**

Individual Items C1, C2, etc.\*  
1/2 ounce drops  
Suggested Retail Price \$28

*\* Each Liquid Triggers™ Item Number Matches the Associated Vertebra:

Called *Liquid Triggers*™, DNR, Inc. has developed 26 electrically charged solutions that are made to be topically applied to designated vertebrae on the spine. These formulations:

- Send select combinations of impulses through the nervous system to targeted areas of the body;
- Trigger the signaling capabilities of the body’s vital organs, glands and soft tissue;
- Transfer subtle energy with coded signals to the appropriate areas being influenced by blocked energy or imbalances.

On the next page is a map of the vertebrae and associated areas with related effects. Each formula is designated with the name of each vertebra as shown on the map. Additional information is on pages 63 & 64.

# Dynique®

***Beginning with your very first soak, Dynique Tightens, Tones and Firms your skin for a slimmer, trimmer and more youthful appearance!***

## ***How Dynique Affects the Skin & Body***

The skin is the largest organ in the body. The structure of the skin is composed of three (3) layers known as the epidermis (the outer layer), the dermis (the real skin or second layer), and the subdermis (the third layer). The skin receives one-third of all of the blood that circulates. The skin is constantly renewing itself from birth to death. The lower layers of skin produce billions of new cells every day while billions of dead cells are shed by the body. There are thirty (30) layers of cells which are constantly being generated from the bottom layer as the outer layer is shed. When the flow of blood to the skin is hindered for any reason, the skin becomes harder and thicker losing its normal appearance. When the blood circulation to the skin decreases, the skin loses its youthful appearance — wrinkles form and color changes. You'll feel your body's natural circulation increase while using *Dynique*.

## ***Dynique as a Body Lift***

It should be noted that some scientists feel over sixty-five percent (65%) of the body's weight is water. Fifty percent (50%) of the body's fat is stored in the subdermis which consists primarily of fatty tissue and fibrous supporting structures. In too many cases there is excess fluid beneath the skin's outer surface. In other cases, the skin has simply lost its elasticity or is loose from prior weight loss. The tightening and firming effect resulting from the *Dynique* Body Lift can help create a healthier more youthful and trimmer appearance.

## ***Dynique® Solution***

Item D106, 32 ounce soak  
Suggested Retail Price \$33

## ***Dynique® Liquid Pearls***

Item DLP, ½ ounce gel  
Suggested Retail Price \$20

*Dynique Liquid Pearls* tightens up and firms those saggy areas around the eyes and chin, PLUS overnight smooths out facial lines and wrinkles. Faster acting and more effective than any cosmetic at any price! The area where *Liquid Pearls* has been applied may feel dry due to moisture being utilized in the skin's inner layer.

## ***As an Alternative Use Dynique Around the Eyes and Mouth***

Many *Dynique* users have been successful in treating the areas around the eyes and mouth. Those with puffiness under the eyes and “crows feet” near the eyes and mouth have responded quickly from simple before-bedtime application. Massage mixture of 2 parts *Dynique*, 1 part water into the selected area for approximately 2 minutes before bedtime. Users may see results upon awakening after first application.

### Using *Dynique* to Treat Stretch Marks

Usage should begin after a new mother has discontinued nursing her child completely. Heat 2 parts *Dynique* and 1 part water. Massage into desired area gently with hand for approximately 2 to 3 minutes. Let dry and repeat twice more. This is also a good place to use *Dynique Liquid Pearls*.

### Using *Dynique* While Losing Weight Through a Diet Plan

If users are using *Dynique* on a regular basis and maintaining a level weight, they will enjoy the maximum skin tone and desirable appearance for that particular weight. However, if they continue to lose weight from proper dieting, they can expect to experience a tighter - firmer skin immediately as the weight comes off. The suggested manner of usage is to take bath soaks as each loss of one to two pounds occurs. After the desired weight is attained or weight becomes stable, occasional soaks two to four times each month should maintain a tighter-firmer skin.

### Using *Dynique* as a Bust Firmer/Lift

Mix 4 ounces of *Dynique* and 4 ounces of warm water. Saturate 2 washcloths in mixture and apply to each breast for 45 minutes. Hold in place with bra or swim suit.

### Using *Dynique* to Tighten Birth Canal

The total body *Dynique* bath will help. For best results, mix 1 ounce of *Dynique* with 1 ounce warm water. Pour into douche container and rinse canal.

### *Dynique* as a Face, Neck and Chin Lift

When talking about the *Dynique* Face, Neck and Chin Lift in relation to the areas of application, there are the cheeks, lower chin area, jowl and neck. Facial puffiness is a condition usually brought about from excess fluids stored up in the cheek and jowl area. Also, the skin located under the chin may be hanging from loss of weight or excess

fluid. In either case, *Dynique* will help firm and tighten the area. The tightening of the excess skin will bring about a more normal and acceptable contour to the viewer.

Men and women alike have enjoyed the immediate improvement in their appearance around the face, neck, and chin area. A 45 minute application where the heated solution is held tightly around the face and lower chin area with the *Diamondhead* Chin Strap can provide an uplifted look for the face, neck, and chin areas. The *Diamondhead* Chin Strap holds the *Dynique* solution to the face, neck, and chin area.

You will see the difference in those swollen puffy cheeks in only 45 minutes. It tightens and firms stretched skin, wrinkles around the mouth and eyes making your face look thinner and more youthful! For that loose saggy neck; it smooths and tightens the loose stretched skin. For the flabby hanging chin line; it firms the chin line helping your face look thinner and years younger.

*Dynique* and the *Dynique* Face, Neck, and Chin Lift provide the user with the maximum cosmetic effect of the skin's appearance without concern of any physical side effect.

### ***Dynique*<sup>®</sup> Face, Neck & Chin Lift Kit**

## Slender Bath "Enhanced"

**Look Slimmer and Trimmer after Relaxing in your own Slender Bath Soak!**

Want a Quick, Smaller Dress Size? You can give yourself a "Slender Bath" any time you want. Sometimes, the elastic and connective tissue becomes weakened due to aging skin or prior weight changes. *Slender Bath* soaks work by tightening and firming the skin each time you use it.

- **Bustline** - feel and see a firmer, improved uplift.
- **Waistline** - clothes should look and feel looser.
- **Abdomen** - should look flatter and trimmer. Stretch marks should be less noticeable.
- **Hips and Thighs** - pants and dresses should reveal a better looking shape and contour.

Plus, each quart of "Enhanced" *Slender Bath* offers these extra benefits.

- Regenerates and energizes skin
- Revitalizes elastic fibers in skin
- Nutritionally fortifies entire skin
- Boosts blood circulation to skin
- Detoxes and cleanses skin cells

The "Enhanced" *Slender Bath* compared to the Body Wrap:

- Safer than being tightly bound in bandage wraps
- Faster and easier because of the time it takes to wrap and unwrap the body
- Provides more and longer lasting inch-loss

### VARIOUS WAYS TO USE SLENDER BATH

**As a Face, Neck and Chin Lift:** Wash face and neck thoroughly with warm soapy water. Rinse. Mix 4 ounces of *Slender Bath* with 4 ounces of hot water. Saturate wash cloth in mixture. Lie down and hold or apply the wash cloth to the neck and face for 1 hour. Remove and pat with wet cool wash cloth. (Use *Dynique*® Face and Chin Strap for best results).

**Safe - Fast - Easy**  
**"Reduce Inches by Tightening and Firming the Skin"**

Item SB141, 32 ounce soak  
Suggested Retail Price \$60.50

**Treating Saggy Eyes and Crows Feet:** Mix and heat 1 part *Slender Bath* and 1 part water. Be careful not to get the mixture in the eyes as it may burn a little. Massage solution into desired area for 2 to 3 minutes. Wait until dry and repeat twice more.

**As a Bust Firmer and Lift:** Begin when no longer nursing children. Mix 4 ounces of *Slender Bath* and 4 ounces of warm water. Saturate 2 wash cloths in the mixture and apply to each breast for at least 45 minutes. Hold in place with bra or swim suit.

**Treating Stretch Marks:** Begin after mother has finished nursing her children. Heat 2 ounces of *Slender Bath* and 1 ounce of water. Massage into desired area gently with the hand for approximately 2 to 3 minutes. Let dry and repeat twice more. Continue 3 times daily until you achieve desired results.

**To Tighten Birth Canal:** A *Slender Bath* Soak will help. For best results, mix 2 ounces of *Slender Bath* with 2 ounces of warm water, then pour into hot water bottle or douche container and rinse canal.

**TIP** - First time users, try on tight fitting clothes prior to first nighttime soak. Use warm-to-hot water. Allow 10 to 15 minutes of soaking for both sides of the body. Go to bed for the evening. Try on the same tight fitting clothes upon awakening. You will see and feel the difference for yourself.

---

---

## **DNR, Inc.'s Trim PAK™**

When it comes to losing weight there is no substitute for diet and exercise. Losing weight requires discipline and will power, the two things that no one can bestow upon you. Discipline and will power must come from within. You can't buy either one. You can't borrow them from a friend. You can't snap your fingers and immediately attain them. You can only do the best you can.

How many times have you said to yourself, "If I just had some help, a little something to make it less difficult."

Developmental Natural Resources, Inc. has a variety of all natural products that were specifically formulated to assist the body in achieving overall balance that helps you as you embark on the lifestyle changes that will make you a healthier person. The The DNR Trim PAK™ provides that "little something" that assists you with the problems associated with weight loss. If all you wanted was a little help, the Trim PAK™ was designed for doing just that.

### **The Trim PAK Regimen**

There are two parts to this protocol. Try on those tight fitting slacks, jeans or dress before your first *Slender Bath* Soak and again the next morning. You will see and feel the difference. For best results take soaks in the evening.

#### ***The Trim PAK Includes:***

- 6 Slender Bath Enhanced (SB141)
- 3 Trim Tab Oral Sprays (TT-140)
- 1 Dynique Liquid Pearls (DLP)
- Suggested Retail Price \$412.50

*"A Measured Difference."*

### **PART I Slender Bath "Enhanced" Accelerated "21" Day Inch Loss Protocol**

16 OUNCES OF *SLENDER BATH* IN A TUB SOAK EVERY OTHER NIGHT FOR 3 WEEKS. (5-DAY WEEKS)  
6 SPRAYS OF *TRIMTAB* AS DIRECTED EVERY DAY FOR 3 WEEKS.

### **PART II Slender Bath "Enhanced" Maximum Benefit For Toning And Firming**

8 OUNCES OF *SLENDER BATH* IN A SOAK ONCE A WEEK FOR 3 WEEKS.  
8 OUNCES OF *SLENDER BATH* IN A SOAK EVERY OTHER WEEK FOR 6 WEEKS.  
6 SPRAYS DAILY OF *TRIMTAB* AS DIRECTED FOR 5 WEEKS.

*Each Protocol Consists Of 6 bottles of SLENDER BATH and an 8 Week Supply of TrimTab Oral Spray.*

## Draw® Products

*“Draw® is not just a ‘me-too’ product. A valuable additional modality in our profession, in a league of its own.”*

Marvin J. Cain, D.V.M., Past President I.V.A.S., Consultant to 700 stables & farms, featured on Blood-Horse cover.

Many animals do not respond properly to strong or synthetic chemical base modalities. The *DRAW* formulas are all natural mineral base liquids that can be administered through a localized soak, wrap or spray. Over the years Vets, trainers and owners have called upon *DRAW* as their first choice for deep cleansing topical wounds and injuries - naturally.

The *DRAW* family of products includes soak, wrap, spray and topical applications. They can be used directly on muscles, tendons, ligaments and soft tissue, allowing the animal to respond naturally and quickly.

### Now - 4 Great Products

#### 1. Original *DRAW*

The original *DRAW* product has been in use since 1986. It is a highly concentrated sulphated mineral formula used on animal athletes. It is fast acting and safe for deep cleansing of topical wounds and injuries.

Item W108, 32 ounce bottle  
Suggested Retail Price \$33

#### 2. *DRAW Plus Spray*

Fast acting and quick penetrating Spray. Premixed with all the benefits of *DRAW X'tra Strength*. Apply immediately in emergency cases and keep moist until *DRAW* or *DRAW X'tra Strength* soak or wrap can be applied. External use on Joints, Muscles, Tendons, Ligaments and Open Wounds.

Item W108-S, 8 ounce spray  
Suggested Retail Price \$33

#### 3. *DRAW Topical*

*DRAW Topical* has been formulated with the same encoded signals as our other topical formulations, but with the added extra strength benefits found in *DRAW*.

Item W108-T, 1ounce bottle  
Suggested Retail Price \$48

#### 4. *DRAW® Extra Strength*

*“It’s Worth the Difference”*

*DRAW X'tra Strength* uses the same mineral base formulation as *DRAW*, except the suspended mineral particles have been ionically charged to match the electrochemical needs of the animal. The wide range of over 1,500 vibrational frequencies offers any blocked or imbalanced electrical pathway a viable support.

*DRAW X'tra Strength* has proven to be an excellent resource in opening blocked energy points.

Item W108-EX, 32 ounce bottle  
Suggested Retail Price \$57.20

## Acupuncture For Any Four Legged Animal

Animal acupuncture dates back to the Jin Dynasty in China from around 136 to 265 A.D. Like acupuncture, DNR Inc.'s Liquid Needle<sup>®</sup> has had amazing results. Liquid Needle<sup>®</sup> has been credited as being one of the most effective treatments for pain, balance and increased vitality for recovery of disease. Animal Liquid Needle<sup>®</sup> treatment has definitely been around for a long time and picks up speed everyday. It is safe and fast acting. It's also simple to understand and easy to apply to the body.

The entire medical community has embraced acupuncture as a modality for humans. There is no reason to believe that our pets and all animals can't use this same application and expect the same success from its use. The only thing the owner or caregiver should know is there are certain locations on the body, known as acupoints, which are necessary to remember. (An attached list of the various points is enclosed.) Your animal or pet will have a mental or physical problem that needs to be addressed. You must determine which one they have immediately. You can't expect results if you are treating a mental problem, physically, instead of using mental means.

Animals are very responsive to acupuncture. They make good patients. They almost always get well or show improvement immediately, especially when they are treated with the appropriate Liquid Needle<sup>®</sup> products. They are spray and/or drop-on liquids that are easier to use than acupuncture needles. If you miss the acupuncture point a bit, it doesn't matter. All you have to do is remember to spray on generously. The bottoms of the feet are the most sensitive areas to treat. The ear area and/or mouth are the other sensitive areas that can always be treated. Don't worry if you make a mistake the first time you use Liquid Needle<sup>®</sup>, as it is very forgiving.

Watching your pet or animal, is a good way to evaluate what's wrong with him or her. You can decide the proper points by noticing any unusual behavior the pet or animal displays. Regardless of the area you treat or the symptom, you should notice the animal becoming calmer. The first twelve to twenty-four hours should be long enough to tell if the animal has improved. Small animals do not always improve as fast large animals. Remember, Liquid Needle<sup>®</sup> products are safe and work for veterinarians and owners (caregivers) alike. You don't have to be experienced to use Liquid Needle<sup>®</sup>.

There is nothing in Liquid Needle<sup>®</sup> products that can hurt the animal. You can't apply too little or too much on the area of treatment. It is recommended that you apply first enough to stimulate the acupoint. Continue treatment until animal is normal. You may wish to visit a veterinarian that specializes in acupuncture if the animal still seems to need help.

Animals are treated using acupuncture all over the world. Even the United States has recognized that using acupuncture on animals is safe and effective. However, Liquid Needle<sup>®</sup> products present a new and more effective approach. Instead of putting metal needles in the body, a more painless and effective method is used. If you think you can't apply Liquid Needle<sup>®</sup> to your pet, find a friend or someone who feels comfortable applying it on the correct locations. However, you should have no trouble since no metal-needles are involved. Using Liquid Needle<sup>®</sup> products entails just knowing where to spray or squirt it on the animal and that's it.

## Equine Acupuncture Points

**Bai Hui:** Pain and stiffness of the hindquarters, arthritis of the hip, paralysis of the hindquarters, overexertion, tetanus, colic, bloat, gastric dilatation, diarrhea, sprain of the loins and hip.

**GB 29 & 30:** arthritis of the hips

**GB 34:** Pain and soreness of back and rear legs

**St 36:** Constipation and diarrhea, colic, abdominal pain, rear leg pain

**SP 6:** Reproductive problems, diarrhea, colic, bladder problems, edema of the body

**GV 14:** Generalized tonic for the whole body, improves body energy

**TH 14:** Any shoulder condition

**LI 11:** Any elbow problem, conditions of the front leg, throat and neck conditions, stumbling in the front legs.

**PC 6:** Stomach conditions, front leg lameness

**Corpus Callosum:** General balance point, stumbling in the front legs, used in any diseased condition of the horse

**GV 20:** General balance point

*Reference: Dr. Terry Durkes, D.V.M.*

## **Therapeutic Strength Liquid Signals® Body Lotion**

Liquid Signals® Therapeutic Strength Body Lotion has demonstrated enhanced energy movement and easy application in clinical trials when used in Reflexology and Massage therapy. While leaving the skin soft and supple, it also brings a noticeable change in emotional rebalancing.

Using Light-Wave encoded resonances and enhancing skin softness, you'll want to use it every day.

Also, Liquid Signals® Body Lotion has been fortified and enhanced with the frequencies found in our Liquid Triggers® Spine products!

**Unscented Item #BL-12 Suggested Retail Price \$40.00**

**Light Jasmine Scent Item #BL-12J Suggested Retail Price \$42.00**

---

## **Basic DNR, Inc. Product Protocol Guidelines**

Any regimen that involves EVB, Liquid Signals Oral Drops, HBH Series Orals and Liquid Needle Body Soaks, should follow the guidelines below for all regimens:

- \* Start with 2 teaspoons of EVB Water Energizer in 32 oz.'s of water and drink throughout the day, every day, (Even during the regimen, but start 3 days before any soaks)
- \* If Liquid Signals Supplement is ½ oz., then take 3-5 drops, 3-5 times a day in your Premixed EVB Water. If more aggressive action is needed, use the Liquid Signals 2 oz., 10-20 drops, 3-5 times a day in your Premixed EVB Water. (Even during the regimen, but start 3 days before any soaks)
- \* When an HBH Series product is used, use one tablespoon in 3-4 oz.'s of plain water or juice and swish in mouth for 40-60 seconds and swallow until it's all gone. (If multiple HBH Series Product are used, take them at least 5 minutes apart from each other as well as the other products)
- \* Now that three days have past, following these guidelines, it's now time to get in your first Liquid Needle Body Soak. On the first and second soak, use 4 oz.'s in the tub and soak for 30-45 minutes, and dunk head for at least 5-10 of those minutes. The third soak and beyond, use 8 oz.'s. (Do this every third day with two days in-between while still following directions above.)
- \* Your hair may become sticky from the toxins being extricated. Wash with vinegar or lemon concentrate with your usual shampoo mixed. It may take 2 times washing hair. Once hair begins to be less sticky, this is an indicator that those targeted toxins are fewer in the body.
- \* Now it may be time to start a different regimen. Never combine regimens unless instructed to do so. Ask your Sponsor, Health Care Practitioner or call us here at DNR, Inc. 317-543-4886.

## The 8 Basic Balancing Points

Your body has 8 Basic Balancing Points that provide maximum benefit from application of *Liquid Needle*® ReBalancer Topical products. Apply to all points at least twice per day. Below is a simplified explanation of the points and their relationship to other parts of the body:

**Point 1.** Located on the center brow above the eyes, this point is associated with the pineal gland and the pituitary gland. It governs the nervous system, the brain (logic side), the eyes (sight), ears (hearing), and nose (smell). This major point is related to the balanced production of melatonin and the neurotransmitter, serotonin. Melatonin is essential in supporting the immune system's ability to fight cancer and regulate restful sleep. Serotonin is the brain's master impulse modulator for all our emotions and drives. It especially keeps aggression in line.

**Point 2.** Located approximately 2½ inches below the bottom of the throat on adults, this point is associated with the thymus gland. This point also has a direct action on the heart, lungs, throat, and thyroid. Stimulation helps stabilize the body's energy. Activating and balancing the thymus gland can assure the production of T-cells which are essential in activating and supporting the immune system.

**Point 3.** Located at the middle of the hair line, this point is associated with the pituitary gland and a major controlling point for the brain. It is responsible for receiving and directing messages or impulses to and from areas of the brain and body. It is one of the five points of the head for balancing and stabilizing the energies of the body. The pituitary gland is known as the master gland and controls the balance and production of hormones to the thyroid gland, adrenal cortex, testes, ovaries, breast, muscle, bones and skin.

**Point 4.** Located at the crown of the head, this point is associated with the pineal gland, physical balance and energy. Governs the upper brain and right eye. This point is a major point of all the positive energies of the body and can reestablish both deficient and excess positive energies. It has a direct effect on memory and feelings and influences psycho-emotional balance.

**Point 5.** Like point three, it is a major controlling point of the brain. Located approximately 2¾ inches behind the crown point, it is also responsible for receiving and directing messages to and from all areas of the head for balancing and stabilizing the energies of the body. This point is associated with the hypothalamus, the switchboard for all the communications in the body.

**Point 6.** Located between C-6 and C-7 (largest extending vertebra at the base of the neck) this point is the meeting point of all the body's positive energy. This point is used to build up and generate the positive energies of the body and help destroy pathological conditions. It is considered to be a major body protection point.

**Points 7-8.** These points are located in front of the ears where an extending half-circular extrusion is located. These points are related to the corpus callosum, the vital tissue that divides the left hemisphere from the right hemisphere of the brain. These are major points used to balance mental, emotional and memory capabilities. When the corpus callosum is out of balance, the right side and left side of the brain seem to function in a reversed manner causing confusion and mental frustration.

---

### When to use topically:

1. Before your work day begins and after lunch.
2. Whenever you feel any consequence of stress, fatigue, loss of vitality or mental focus.
3. Before competing in a sporting event or expending excess energy for any purpose.

## The Effects of Scar Tissue

Light Energy is essential to the proper functioning of every cell and organ of the body. Energy flows through the body from head to toes along electrical pathways. Proper balance is obtained when Energy is moving freely along these pathways. Many influences deter the proper flow of Energy, but few are as damaging as scar tissue. These dead tissue masses act as energy barriers causing blockages and imbalances along these pathways.

One way scar tissue may be identified is by Kinesiology testing. It may have occurred on the head during childbirth or from a childhood injury. The list on the right might help begin your search for scar tissue areas on your body.

## Body Soak Blue

In a full body soak, *Liquid Needle*® **Body Soak Blue**, Item 105-B, will reach most scar tissue points. Body Soak Blue can help provide the essential balance needed by unblocking the blocked energy that needs to flow through electrical and signaling pathways.

## Topical Application

Applying *Liquid Needle*® Topical Original or Extra Strength to scar tissue areas, or using *ChekMate* Spray on large areas of scar tissue, enhances a substantial flow of Energy through damaged tissue. It is extremely important to make applications to all scar tissue areas two or three times per day until normal energy movement is restored.

## Look for scar tissue:

- Anywhere on the head, where forceps birth or bumps from accidents, falls or blows to the head may have left scar tissue.
- At locations where surgical operations were performed: heart, lung, kidney, appendix, hernia, childbirth, cyst removal, plastic surgery, replacement joints and organs replacements, cesarean birth, hair transplants, breast implants, liposuction, hysterectomy, dermatological treatments, etc.
- At locations where injury occurred: automobile accidents, falls, scratches, scrapes, punctures, broken bones, animal bites, fractures, sprains, strains, etc.

## Especially for Women

Many women suffer from mood swings and other symptoms due to imbalances during PMS or menopause. In addition to the *Liquid Signals*<sup>®</sup> Oral Supplements MEL-502, PRO-503, and ExStress, *Liquid Needle*<sup>®</sup> Topical Brown Label may be applied topically as described below.

**Brown Label** has exclusive properties specifically designed to assure proper balance. In addition to the 8 Basic Balancing Points, the points shown below are important for women experiencing these imbalances.

For best results, apply **Brown Label** twice per day to these points while lying on your back for a minimum of 5 minutes.

- 1) Center of chest
- 2) In Umbilicus (4 to 6 drops in navel)
- 3) 2" below point 2
- 4) 1 ½" below point 3
- 5) 1 ½" below point 4
- 6 & 7) 2" above center of knee

### QUICK TIP

Balance may be extended by applying **Brown Label** to the following additional points:

---

## Other Important Uses of Yellow and Green Label

### Fresh Fruits and Vegetables

Soak all fresh fruits and vegetables in a sink or bowl of water with 8 drops of Yellow Label and 8 drops of Green Label for 10 to 15 minutes. The Yellow is for the pesticides and other chemicals found in and on the food, and the Green is to balance and enhance the food's natural nutritional and vitamin, mineral values.

### Non-fresh Foods & Supplements

Add 5 drops of Yellow Label and 5 drops of Green label to 3 ounces of water and drink all before eating in a restaurant or eating pre-prepared foods (i.e.-frozen or microwave meals), and each time you take any internal health product.

### Add 5 drops of Yellow Label weekly to

Liquid Soaps, Body Lotion, Hair Spray, Hand Lotion, Household Cleaners, Hair Rinse, Water for Plants (especially for those dealing with Multiple Chemical Sensitivities).

### The Teeth & Gums

Inside a typical American adult mouth are fillings, crowns, metal posts and other metallic and plastic implants. The leakage and radiation from these materials can cause severe imbalances which affect the entire body. You may use Kinesiology testing for blockages and imbalances in the mouth by placing the middle finger of the test subject's free hand onto each area in question and test.

When a blockage or imbalance is found, mix 5 drops of *Liquid Needle* Yellow Label and 5 drops of Green Label into 3 ounces of room temperature water. Swish throughout mouth and gums for 15 seconds, swallow, repeat several times. Drink remaining water. Repeat twice daily.

### The Eyes

Often vision is impaired when certain bio-signals are blocked between the brain and eyes. *Liquid Needle* Green Label is well suited for addressing the imbalances affecting the distortion of vision. Below you will see a map of eye points that can be used when applying Green Label or using Kinesiology testing.

To help determine if there can be any improvement with the use of Green Label for close-up vision, remove glasses or contacts and focus on any object and remember how it looks before application of Green Label. Apply a drop or two to each point with the eyes closed (be careful not to get into eyes). Hold the finger with the drops to each eye point for 10 to 15 seconds. Leave the residue of Green Label on each point.

Keep the eyes closed for 30 seconds. Now look at the same object and check to see if there is noticeable change. If properly applied to the points, there should be noticeable change after the first application. For best results, continue application 3 times daily for first week, twice daily for second week and once daily thereafter.

This same technique can be used for those with altered vision at a distance or problems with night time driving. Before applying Green Label, without your glasses, focus on objects at the normal distance you have problems seeing. Apply Green Label in the same manner as cited above and refocus on same objects. You may now even notice a change in your vision with your contacts in or glasses on.

## Helpful Hints about **All Liquid Needle® Body Soaks**

- If you have never taken a DNR Body Soak, you should *begin with EVB regular-strength 3 to 4 days prior to taking your first soak.*
- All Body Soaks should be taken at night, before bed, except Body Soak Blue. If your scheduling requires morning or afternoon soaks, leave time to rest after the soak.
- Soak for 30 minutes each bath. Bath water should be warm, not too hot. In Summer months, cool baths are acceptable.
- For best results, soak the top and back of your head for 10 minutes during each soak. To remove the toxins held to your hair, wait 4 hours minimum after soak and shampoo 3 times. A few drops of lemon juice or lemon concentrate mixed with the shampoo will help remove the toxic buildup on the hair.
- If you desire the benefits of two different soaks, do not mix them in the same bath. For basic soaks (Blue, Clear, Gold, Amber), alternate soaks—one Blue, one Clear, one Blue, etc. For advanced protocols (Lympha, COF, TAB, CIG, etc.) complete one protocol before beginning another.
- The most effective soak protocol is to add 4 ounces of body soak per bath for first 2 soaks, and 8 ounces per bath for next 3 soaks—with 2 days between soaks. If you prefer, you can use half this amount with 1 day between soaks.
- Those who have been experiencing ill health or feel they are severely toxic may feel more comfortable using 2 ounces of body soak instead of 4 ounces in the first 2 soaks, then move up to 4 ounces for the next 2 soaks. Soaks can be continued at 4 ounces, or increased to 8 ounces, thereafter.

### \*\*\* IMPORTANT READ \*\*\*

Whenever any user of DNR energy products experiences any uncomfortable or uneasy feeling after taking a Body Soak or oral application, any of the following conditions may exist... The body was severely out of balance; the body's vital energy level was weak or blocked; the product attacked a harmful agent in the body; or a combination of the above.

Sometimes there may be a conflict with a drug or strong supplement being taken. Usually, discomfort or peculiar feelings take place after the first soak or application. If they persist, reduce number of ounces in the Soaks, reduce oral dosage, or discontinue while taking medicines or questionable supplements.

### Synergy Simplified

#### RELEASE & EXTRICATION OF TOXINS

Liquid Signals Oral Supplements assist the body in triggering the natural release of toxins from the organs, glands and systems of the body where toxins reside. During this natural release, toxins make their way to the sub-dermal skin layer where the appropriate Liquid Needle Body Soak assists in the safe and natural extrication of toxins through the pores of the skin and the sebaceous glands of the hair follicles. Getting the toxins in position for extrication is what Liquid Signals Oral Supplements are all about.

Liquid Signals Oral Supplements do not “force” an action for the release of toxins the way harsh drugs, synthetics or other supplements may do. Instead, Liquid Signals Oral Supplements, encoded with specific and subtle light-wave energy signals, balance the body and allow for the “natural release” of toxins from areas of the body where toxicity dwells.

It is this synergistic relationship between Liquid Signals Oral Supplements and Liquid Needle Body Soaks that makes DNR, Inc. Detox regimens so naturally safe, revolutionary and unique.

---

## **Product Protocols and Regimens**

While these protocols are recommended as written, they may require personalized usage instructions. Follow these protocols exactly to attain the results desired. **If you have never used DNR energy-based products, you should begin with *EVV* regular-strength 3 to 4 days prior to using any other products.**

### ➤ **Prostate - Urinary Difficulty**

- Begin with STA-516, KBL-514, GLA-519. Add 6 drops of each to 3 ounces of water or juice and drink all, 3 times per day. Use Extra-Strength products for more severe/nagging conditions.
- One week after starting with these supplements, begin using Body Soak 105-STA as directed on the bottle.
- Ten days after starting with these supplements, begin using URI-SYS. Pour 1 teaspoon into 1 ounce of water or juice in the morning. Swish in mouth for 30 seconds and swallow. Repeat at lunch or dinner if needed.
- Duration of Protocol: follow as long as necessary. [You can enhance the performance of this protocol by applying *Liquid Triggers* Item L4 to the appropriate vertebra twice daily.]

### ➤ **Blood Pressure**

- Begin with HEA-508, KBL-514, GLA-519 and *ExStress* (or *ExStress* Extra-Strength). Add 6 drops of each to 3 ounces of water or juice and drink all, 3 times per day. Use Extra-Strength products for more severe/nagging conditions. (Some people prefer 6 sprays of the Oral Spray three times per day or as needed.)
- One week after starting with these supplements, begin using Body Soak Clear (105-C) as directed on the bottle.
- Ten days after starting with these supplements, begin using CAR-SYSEX.: Pour 1 teaspoon into 1 ounce of water or juice in the morning. Swish in mouth for 30 seconds and swallow. Repeat at lunch or dinner if needed.
- Duration of Protocol: follow as long as necessary.

### ➤ **Liver Cleanse (product information on page 33)**

- Begin taking 6 to 9 drops of KBL-514 EX in 3 oz. of water 3 times daily for 8 weeks.
- After 4 days of taking the KBL drops, take 1 teaspoon of LVR-604 EX twice daily for the 8 week period, and begin LVR-Detox Soak by adding 4 oz. to warm bath water and soak 30 min. every other night for 2 soaks. Use 8 oz. for remaining soaks 3 times per week until 2 quarts have been used completely.
- If bath water is dark and cloudy after first 2 quarts, continue the entire regimen for additional 2 weeks.
- Duration of Protocol: 45 days. [You can enhance the performance of this protocol by applying *Liquid Triggers* Item T5 to the appropriate vertebra twice daily.]

### ➤ **Allergies**

- Begin with ALL-510EX, COL-515EX and VIR-513EX. Add 6 drops to 3 ounces of water or juice and drink all, 3 times per day. Use Extra Strength Topical Original (E116) on your 8 points 3 times per day.
- Ten days after starting with these supplements, begin using RES-SYSEX. Pour 1 teaspoon into 1 ounce of water or juice in the morning. Swish in mouth for 30 seconds and swallow. Repeat at lunch or dinner if needed. Use BodySoak 105-RES for more cleansing.
- Duration of Protocol: seasonal or as long as necessary.

### ➤ **ADD, ADHD, Mental Focus, Concentration, Anger, Moodiness** (product information on page 21)

- Begin with the *Liquid Needle Total Balance* on your 8 points 3 times per day as shown on the bottle.
- After 1 week, use orally and/or topically, or use *Total Balance Oral Spray* if desired. Add 3 drops in 3 ounces of juice or water 3 times per day. Drink all.
- In severe cases use *ExStress* (or *ExStress Extra-Strength*). Add 3 drops to 3 ounces of water or juice and drink all, 3 times per day. One week after starting with *ExStress*, begin using *ExStress Soak* (105-EXT) as directed on the bottle.
- Duration of Protocol: as long as necessary.

### ➤ **Chronic Indigestion**

- Use Topical Yellow Label (Y118) and Topical Green Label (G120) orally. Add 3 drops of each in 3 ounces of water or juice and drink all, 3 times per day.
- If Yellow and Green Labels are not entirely effective within 10 days, begin using STO-601 or INT-602. Pour 1 teaspoon into 1 ounce of water or juice in the morning. Swish in mouth for 30 seconds and swallow. Repeat at lunch or dinner if needed.

### ➤ **Parasite Activity - Parasite Pak Regimen (product information on page 28)**

- Begin with PAR-534EX. Add 10 drops to 3 ounces of water or juice and drink all, 3 times per day for 21 days.
- Plus, SKN-524EX. Add 3 drops to 3 ounces of water or juice and drink all, 3 times per day for 42 days (6 weeks), and CLN-603EX. Pour ½ teaspoon into 1 ounce of water or juice (swish in mouth for 30 seconds and swallow) twice daily for 42 days.
- PAR-134 Body Soak: 3 days a week (Mon, Wed, Fri) for 3 weeks. Optional: See Parasite Prevention and Maintenance below.
- Liquid Needle Yellow Label EX orally, 3-6 drops, 3 times daily throughout the regimen.

### ➤ **Parasite Prevention and Maintenance (product information on page 28)**

- Begin with oral supplement PAR-534 and CAN-509 Extra-Strength. Add 6 drops of each to 3 ounces of water or juice and drink all, 3 times per day.
- One week after starting with the above supplements, begin using PAR-134 Body Soak once weekly.

### ➤ **Nutritional Maintenance**

- Use VIT-506, MIN-521 and ENZ-507. Add 3 drops of each to 3 ounces of water or juice and drink all, 3 times per day. After first week, increase to 6 drops if necessary.
- According to your specific need, you may wish to also use DHE-501, MEL-502, PRO-503, BAR-504 and/or PYC-505. Add 3 drops of each to 3 ounces of water or juice and drink all, 3 times per day. After first week, increase to 6 drops if necessary.
- Duration of Protocol: continual.

### ➤ **Chronic Fatigue and Fibromyalgia**

- Use Amber*Plus* Body Soak (105-AP) or Body Soak Blue (105-B) as directed on the bottle. Use Extra Strength Topical Original (E116) on your 8 points 3 times per day. Use Shampoo Drops (SD121) as directed on bottle 3 times per week for best results. Use *ChekMate Spray* (CM-135) on areas of concern as needed.
- Duration of Protocol: as long as needed. [You can enhance the performance of this protocol by applying *Liquid Triggers* Items C1 and T10 to the appropriate vertebrae twice daily.]

### ➡ **Depression or Stress Related (product information on page 15)**

- Begin with *ExStress* (or *ExStress* Extra Strength). Add 6 drops to 3 ounces of water or juice and drink all, 3 times per day. Use Brown Label Topical (B111) on your 8 Points 3 times per day.
- One week after starting with *ExStress*, begin using *ExStress* Soak (105-EXT) as directed on the bottle. Duration of Protocol: as long as necessary.

### ➡ **Cold-Flu-Sinus**

- Begin with COL-515EX, VIR-513EX and ALL-510EX. Add 6 drops of each to 3 ounces of water or juice and drink all, 3 times per day.
- One week after starting with the above supplements, begin using Body Soak Amber (105-A) or Blue (105-B) as directed on the bottle.
- Duration of Protocol: begin whenever symptoms first occur and continue as long as necessary. [You can enhance the performance of this protocol by applying *Liquid Triggers* Items C1 and C2 to the appropriate vertebra twice daily.]

### ➡ **PMS, Perimenopause, Menopause and Post Menopause**

- Use MEL-502, PRO-503, WOM-512 and *ExStress* (or *ExStress* Extra-Strength). Add 3 drops of each to 3 ounces of water or juice and drink all, 3 times per day. After first week, increase to 6 drops if necessary. Use Brown Label Topical (B111) on your 8 points 3 times per day, if necessary.
- One week after starting with the above supplements, begin using Body Soak Clear (105-C) or *ExStress* Soak (depending on stress level) as directed on the bottle.
- Duration of Protocol: continual. [You can enhance the performance of this protocol by applying *Liquid Triggers* Item L3 to the appropriate vertebra twice daily.]

### ➡ **Chemical & Heavy Metal Toxicity Cleansing Protocols Using COF-EX (product information on page 30)**

Whenever DNR scientists develop a product to perform particular tasks, they rely on light wave frequencies to signal and trigger precise responses. These responses take place first at the subatomic level. The same is true with the COF-EX Body Soak and Oral Drops. Their charged and energized particles activate responses by using light wave generated signals to stimulate and trigger cleansing and other desired actions within the cell.

After adding the COF-EX Body Soak to your bath water, you simply relax as the charged water molecules send their coded signals to the parts of the body that have been experiencing imbalances or blockages of natural energy movement. As localized balance returns to these areas, the release and removal of metallic and chemical toxins can take place naturally and expeditiously.

The unique manner in which COF-EX Body Soak triggers the release of toxins through the skin's pores is not only safe and effective, but healthy, as well. By using natural pathways in the body that lead directly to the skin's surface, harmful chemicals and metals won't be routed through the organs and glands via the blood stream. Once toxic debris reaches the outer layer of skin, it becomes part of the bath water particles. Not always, but often, the polluted water can appear murky or have a definite tint or color. [Note: Lack of discoloration is not an indication the soak is no longer effective.] (The color of certain metallic and chemical agents can be altered by the soak's charged ingredients.)

As you leave the tub, you will have left a major portion of toxins and body poisons behind to be disposed of safely down the drain. You will take with you a feeling of renewal, greater circulation and balance.

For the safest, most effective cleanse when dealing with heavy metals and unsafe chemicals use COF-130 Extra-Strength Soak. It has been upgraded and enhanced for dealing with environmental toxins. This special formula now covers over 500 of the most prevalent heavy metals, unsafe chemicals and toxic solvents found in food sources and the environment.

With the EPA reporting that 100% of fat samples studied show chemical and heavy metal poisoning (see page 24 of this guide), chances are anyone reading this is TOXIC with these chemicals and heavy metals. Therefore, we have developed these protocols especially for those who suspect they have become affected by chemical or metal poisoning.

*Two protocol versions are offered here depending upon need.*

### **A Nine (9) Soak Protocol**

- Add 4 drops of COF-520EX to 2 to 3 ounces of water and drink all, 3 times per day. Continue for all 25 days of protocol.
- Liquid Needle Yellow Label EX orally, 3-6 drops, 3 times daily throughout the regimen.
- Body Soaks: use as directed on bottle of COF-130EX, leaving 2 days between soaks for a total of 9 soaks. Use 4 ounces for first 2 soaks. Use 8 ounces for each of the remaining 7 soaks. See chart below:

**Take Soak on Day:** 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25

### **A Twenty-one (21) Soak Protocol**

- For those with long-term or severe toxicity, the above protocol may be extended. Offered here is the DNR 21 Soak Chemical & Heavy Metal Toxicity Cleansing Protocol.
- Add 4 drops of COF-520EX to 2 to 3 ounces of water and drink all, 3 times per day. Continue throughout the entire protocol.
- Liquid Needle Yellow Label EX orally, 3-6 drops, 3 times daily throughout the regimen.
- Body Soaks: use as directed on bottle of COF-130EX, leaving 2 days between soaks for a total of 21 soaks. Use 4 ounces for first 2 soaks. Use 8 ounces for each of the remaining soaks. See chart below:

**Take Soak on Day:** 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25  
26 27 28 29 30 31 32 33 34 35 36 37 38 39 40 41 42 43  
44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60 61

### **Important Detoxifying Regimen Tips:**

1. **EVB regular-strength water energizer should be used by those who have never used DNR energy-activated products.** EVB should be added to drinking water three (3) days prior to and during the COF-EX product protocols. This allows the body to establish balance and be prepared for the sensations from the accelerated movement of renewed energy and vitality that normally comes from the first soak.

2. It is important that you are diligent in this process. There may be times during the protocol that your body may be releasing excessive amounts of toxins, so you may feel sleepy, fatigued, even light-headed. This is a natural part of natural cleansing.

3. It is recommended to leave the head submerged for approximately 10 minutes. This allows for the natural removal of chemicals or metallic toxins that may be isolated in the jaw, gums or head. The sticky toxic debris held in the hair can be removed later by adding lemon juice to the shampoo lather as you shampoo your hair.

### ► **Lymphatic System (product information on page 31)**

- **First**, DNR's *Lympha-Oral Drops* can be taken daily to help lymph fluids maintain a balanced flow. Without this balanced flow of lymph and its constituents, infection and inflammation can occur causing the entire immune system to abnormally function or shut down completely. Begin using the *Lympha Drops* 3 to 5 days prior to taking your first *Lympha Soak*, and continue thereafter.
- **Second**, DNR's *Lympha Soak* gives lymph fluids that extra stimulus when it has been obstructed for extended periods. *Lympha Soak* has been formulated to cleanse and help create lymphatic drainage when needed. *Lympha Soak* can be taken every fourth night or as needed. A person who has been inactive or ill for a protracted period can begin using smaller amounts than directed on the labels.

### ► **Respiratory System (product information on page 32)**

DNR, Inc. has developed two protocols to choose from depending upon your situation.

For those who have taken or used any of the listed medicines\* or substances for less than 13 weeks and/or have been subjected to second hand smoke in the past, follow Protocol A. For those who have taken or used any of the listed medicines or substances for over 13 weeks and/or those who continue to be subjected to second hand tobacco smoke on a regular basis, follow Protocol B.

#### **Protocol A**

- Begin by taking one (1) teaspoon orally of RES-SYS-EX twice daily as directed on the label for eight (8) weeks. Three (3) days after starting RES-SYS-EX oral application, begin body soaks using the new RES-105 as directed on the label for nine (9) soaks. If concerned about excessive toxicity, continue RES-105 soaks for an additional five (5) soaks.
- **TIP:** This protocol is available through the Respiratory Protocol Pak, Item RES-PAK, which includes two RES-105 Body Soaks and two RES-SYS-EX.

#### **Protocol B**

- Begin as in Protocol A. After eight (8) weeks, continue to use RES-SYS-EX once daily to combat second hand smoke inhalation and absorption. Continue RES-105 body soaks twice per month.

### ► **Endocrine Detox Regimen (product information on page 39)**

1. Start by using EVB-137 water additive as directed on bottle.
2. Add 6-12 drops of GLA-519EX in 3 oz. water or juice and drink 3 times per day.
3. Take 1 teaspoon of END-SYSEX in 1 oz. of water. Swish in mouth a while and swallow until 1 oz. is gone. Do this twice daily. Please take it separate from the **GLA-519EX**, waiting 5 minutes in-between.
4. After 3 days of above directions, you may now begin the 105-END Body Soak. Soak for 30 minutes in warm water (not too hot) each Monday, Wednesday and Friday nights. Take the weekend off. **Do this for 9 soaks**, or as directed by your health professional. First 2 soaks add 4 oz. of **105-END** to the bath water. Each soak thereafter add 8 oz. of **105-END** to the bath water. If 4 oz. too much to start with, use 2 oz. until you can work up to 8 oz. per soak.
5. Use B111EX to balance yourself on the 8 Basic Balance Points before getting into the tub each soak night, and rebalance yourself with the **B111EX** after getting out of the tub. (Women should apply at this time to the Female Balance too.)

## **Tips for Liquid Triggers® Usage**

The spine is the “electrical junction box” for the entire body. Every gland, organ and function of the body is directly linked to one or more vertebrae. Therefore, the spine is the body’s most direct route for getting to problem areas.

- Look at the *Liquid Triggers* Spinal Chart on page 34, the Quick Reference Chart on the next page and/or the Quick Reference Table Below and locate a description of symptoms.
- Select the vertebra or vertebrae associated with the symptoms and the product or products which are associated with each vertebra. Locate the areas and/or effects that persist. Select the *Liquid Triggers* products that match the vertebrae connected to the associated areas or effects.
- Apply 4 to 6 drops of each *Liquid Triggers* product on your middle and index fingers and rub into the appropriate vertebra. If dealing with more than one vertebra, apply one product at a time.
- When dealing with pain, rub in a counter-clockwise to the body motion. This will help trigger the release of the body’s own pain fighting signals. Otherwise, rub in clockwise to the body.
- *Liquid Triggers* is most effective when application can be repeated twice daily for 6 consecutive days. Use daily as long as needed.
- Subtle adjustments may also occur from *Liquid Triggers* application.

C-1 for headaches, nervousness, memory, colds, glands, inner/mid ear, & high blood pressure.

C-2 for the eyesight, sinus, allergies, mastoid bones, tongue, earache, & fainting spells.

C-3 for the health of teeth, skin, outer ear, cheeks, & control of acne & eczema.

C-4 for hearing, adenoids, nose, mouth, hay fever, Eustachian tube, eyes & sinuses.

C-5 for vocal cords, neck glands, throat, pharynx, laryngitis & hoarseness.

C-6 for neck muscles, shoulders, tonsils, whooping cough, croup & throat problems.

C-7 for thyroid glands, colds, bursitis in the shoulder and/or elbows.

T-1 for asthma, cough, shortness of breath, lower arms, hands, wrists & fingers.

T-2 for chest pains & heart, including its valves, covering & coronary arteries.

T-3 for lungs, flu, congestion, bronchitis, pleurisy, pneumonia, chest, breast & nipples.

T-4 for the gallbladder, common duct, jaundice & shingles.

T-5 for the liver, solar plexus, low blood pressure, poor circulation, anemia, fevers & arthritis.

T-6 for stomach troubles including nervous stomach, heartburn, dyspepsia & indigestion.

T-7 for diabetes, ulcers, gastritis, pancreas, islands of Langerhans & duodenum.

T-8 for spleen, diaphragm, hiccoughs & lowered resistance.

T-9 for adrenals or suprarenals, allergies & hives.

T-10 for kidneys, hardening of the arteries, chronic tiredness, nephritis & pyelitis.

T-11 for kidneys, ureters & skin conditions like acne, pimples, eczema, or boils.

T-12 for lymph circulation, fallopian tubes, rheumatism, gas pains & small intestines.

L-1 for large intestines, colon, inguinal rings, dysentery colitis, constipation, diarrhea & hernias.

L-2 for the appendix, abdomen, acidosis, upper leg, varicose veins, cramps & breathing.

L-3 for reproductive & sex organs, menstrual cycles, impotency, bladder & bed-wetting.

L-4 for the prostate, urination conditions, sciatic nerve, muscles of the lower back & lumbago.

L-5 for lower leg circulation, feet, toes, swollen and/or weak ankles, cold feet & leg cramps.

**Sacrum** for hip bones, buttocks, sacroiliac conditions & spinal curvatures.

**Coccyx** for hemorrhoids, piles, anus, itching & rectum related conditions.

*See Quick Reference Chart on Next Page >>*

## Liquid Triggers™ Quick Reference Chart

- C-1 for headaches, nervousness, memory, colds, glands, inner/mid ear, & high blood pressure.
  - C-2 for the eyesight, sinus, allergies, mastoid bones, tongue, earache, & fainting spells.
  - C-3 for the health of teeth, skin, outer ear, cheeks, & control of acne & eczema.
  - C-4 for hearing, adenoids, nose, mouth, hay fever, Eustachian tube, eyes & sinuses.
  - C-5 for vocal cords, neck glands, throat, pharynx, laryngitis & hoarseness.
  - C-6 for neck muscles, shoulders, tonsils, whooping cough, croup & throat problems.
  - C-7 for thyroid glands, colds, bursitis in the shoulder and/or elbows.
  - T-1 for asthma, cough, shortness of breath, lower arms, hands, wrists & fingers.
  - T-2 for chest pains & heart, including its valves, covering & coronary arteries.
  - T-3 for lungs, flu, congestion, bronchitis, pleurisy, pneumonia, chest, breast & nipples.
  - T-4 for the gallbladder, common duct, jaundice & shingles.
  - T-5 for the liver, solar plexus, low blood pressure, poor circulation, anemia, fevers & arthritis.
  - T-6 for stomach troubles including nervous stomach, heartburn, dyspepsia & indigestion.
  - T-7 for diabetes, ulcers, gastritis, pancreas, islands of Langerhans & duodenum.
  - T-8 for spleen, diaphragm, hiccoughs & lowered resistance.
  - T-9 for adrenals or suprarenals, allergies & hives.
  - T-10 for kidneys, hardening of the arteries, chronic tiredness, nephritis & pyelitis.
  - T-11 for kidneys, ureters & skin conditions like acne, pimples, eczema, or boils.
  - T-12 for lymph circulation, fallopian tubes, rheumatism, gas pains & small intestines.
  - L-1 for large intestines, colon, inguinal rings, dysentery colitis, constipation, diarrhea & hernias.
  - L-2 for the appendix, abdomen, acidosis, upper leg, varicose veins, cramps & breathing.
  - L-3 for reproductive & sex organs, menstrual cycles, impotency, bladder & bed-wetting.
  - L-4 for the prostate, urination conditions, sciatic nerve, muscles of the lower back & lumbago.
  - L-5 for lower leg circulation, feet, toes, swollen and/or weak ankles, cold feet & leg cramps.
- Sacrum for hip bones, buttocks, sacroiliac conditions & spinal curvatures.  
 Coccyx for hemorrhoids, piles, anus, itching & rectum related conditions.

Before your body can deal with any health condition or problem, it must be in balance and its communication system must be able to get through, so to speak, to the problem area where the condition exists. For instance, if there is an energy blockage in the body to a gland or organ, that particular gland or organ cannot function normally as intended. **It is the body's natural energy that must support every cell, organ, gland, and system in the body.**

Every light-energized Body Soak made by DNR can energize and trigger the movement of energy throughout the body. But, for complex situations, the Liquid Triggers are formulated to be placed (at full strength) directly on the vertebra location that relates specifically to a particular area and/or condition in the body.

**Above is a guide that will help relate each Liquid Trigger product to a specific condition or area of the body.**  
**For example:** If you or someone has been dealing with a problem concerning a gall bladder or the shingles for an extended period of time, you would apply (or have someone apply) T-4 to the T-4 vertebra. The highly charged activation of energy with the appropriate coded signals will be directed to the exact targeted location.

While you or the user may feel the subtle surge of moving energy, there will be no electrical shock or discomfort.
